40539-MI

Wallplates and Housings

Brand Features

Leviton's Midsize Single-Gang Wallplates are ideal where flush mount telephone or video connection plates are needed. Midsize plates are 3/8" higher and wider than standard plates to help disguise irregular or oversized wall openings, resulting in a neat, professional finish. Durable video connection wallplates are available with an F-Connector or unloaded with a hex-shape outlet for later coax cable installation. Telephone wallplates with 6P4C voice grade connector and combination video and telephone wallplates are also available.

Item Description

Midsize Video Wall Jack, F connector, Ivory
