Wallplates and Housings

Brand Features

VGA 110-termination Multimedia Outlet System (MOS) Modules provide a point-to-point connection over twisted-pair cabling. Connect computers, laptops, and tablets to monitors and projectors using standard VGA connectors. The IDC termination allows for quick termination and customization of cable lengths in the field.

Item Description

VGA 110-Termination MOS PC Module, Grey

Features and Benefits

- PC and Monitor modules must be used as a set (PC and Monitor Modules)
- Modules must be installed in a Leviton MOS wallplate
- Modules are 1 unit high
- VGA modules can be mixed with other MOS modules in the same wallplate
- Two twisted-pair cables (CAT 5e or higher, UTP or shielded) required for each set of VGA modules
- Not compatible with MOS Surface Mount Boxes

**Buy American Compliant Logo -- The American Recovery And Reinvestment Act of 2009 ("ARRA") provides federal grants and loans for projects throughout the country. Section 1605 of the Act, named the "Buy American" provision, requires that certain materials and manufactured products used in projects funded by the Act be manufactured in the United States. The appearance of the Recovery Act Logo in relation to a Leviton product is only intended to reflect that such product may be used in an ARRA funded project. It does not mean that such product or Leviton is sponsored or endorsed by, or that Leviton receives funds from, the federal government or the Recovery Accountability and Transparency Board. Nothing in Leviton's use of the logo is intended to suggest anything regarding the requirements for funding under ARRA.*
