

42A00-2

Omni Security Systems

Brand Features

Omni Wireless Security Sensors not only protect you from intrusion and other hazards, they act as the eyes and ears of your automated home or business. For instance, utilize the sensors to know whether or not a window is open upstairs and have the automation system turn off the HVAC in that area. Utilize a wireless driveway sensor to notify you when a guest has arrived or illuminate exterior lighting.

Item Description

Wireless Receiver for GE InterLogix.

Features and Benefits

- Compatible with all 319.5 MHz GE Security (a.k.a. ITI or Interlogix) and Caddx (crystal or SAW) Learn Mode™ 63-bit wireless transmitters
- This receiver is not compatible with 80-bit wireless transmitters
- Allows up to 64 unique wireless transmitters to report information to a Leviton Omni or Lumina automation system
