Omni Security Systems

Brand Features

Omni Wired Accessories allow the Omni security & automation system to expand beyond just a security system. Add hard-wired controls for control of temperatures, lighting, and more. Even give your home a "voice" with the two-way voice module. Receive auditory confirmation when a door has opened or a reminder that it's trash night.

Item Description

Four Relay Module.

Features and Benefits

- Relay Modules are used to convert Leviton voltage outputs to Form C relay contacts for switching pumps, motors, commercial lighting, remote control breakers, and sprinkler systems

- This Relay Module provides 4 independent Form C Relays.

- Contacts rated 5 amps at 24-volt DC

- LED indicators show which relays are energized

- This model has mounting holes. Mounts in Lumina Pro / OmniPro II 17A00-1 Expansion Enclosure

- An 8 Relay Module is also available, part number 19A00-1
