

56A00-1

Omni Security Systems

Brand Features

Omni Wireless Security Sensors not only protect you from intrusion and other hazards, they act as the eyes and ears of your automated home or business. For instance, utilize the sensors to know whether or not a window is open upstairs and have the automation system turn off the HVAC in that area. Utilize a wireless driveway sensor to notify you when a guest has arrived or illuminate exterior lighting.

Item Description

Wireless Recessed Door.

Features and Benefits

- Used for protection of doors and windows in installations where the transmitter and magnet must be totally hidden
- The supervised transmitter and contact are concealed within the door or window frame for virtual transparency
- Uses CR23V lithium ion battery, included.
- This Wireless Recessed Door requires the use of a Leviton 64 Zone Wireless Receiver (HAI Part Number 45A00-1).
