Load Control Modules

Item Description

HLC Load Control Module.

Features and Benefits

- HLC Load Control Module is a remote controlled heavy duty switch which may be used to operate 120VA or 240VAC electrical appliances, such as water heaters, pool pumps, baseboard heaters, branch lighting loads, etc
- It can be controlled locally by using the Decora-style rocker switch or remotely by a UPB powerline signal. It also features a manual disconnect switch
- HLC Load Control Module is a 30 AMP Module utilizing Generation III UPB™ (Universal Powerline Bus), a reliable digital communications standard, over existing power lines. Can Control 120 or 240V loads. Requires neutral wire
- For indoor use only
