86A00-2

Automation/ AV Controllers

UPC Code: 87225700867

Country of Origin: Please Contact Customer Service

Item Description

Home Theater Extender 2 IR Controller (HTX 2).

Features and Benefits

- The HAI HTX 2 may be powered from the supplied 12VDC power supply that comes with the unit or via Power over Ethernet (PoE)
- When used stand-alone, a free iOS app for iPhone/iPad/iPod Touch can be used to control your home theater equipment. Default templates are provided but may be customized in the provided Mobile Designer software. Multiple HTX2's can be linked together to control dozens of AV components in restaurants or sports bars. Control of multiple AV systems is easy. Contact closures can even operate window coverings, lights, and home theater components
- Leviton Security & Automation's IP interfaces send commands to the HTX2, which in turn controls A/V equipment using its serial ports, IR ports, and relays. The HTX2 includes four IR Flashers (emitters) that attach to the IR Receiver of any A/V equipment you wish to control
- The I/O ports on the HTX2 are used for power sensing for devices without discrete on/off IR commands. Relay ports on the HTX2 can be used to control any device that requires a contact closure, such as motorized screens or blinds
- Easily add audio/video components with the built-in A/V Library of over 300,000 IR codes or add new codes with the IR Learner
- Using a Leviton Security & Automation automation system? Easily tie in your audio/video equipment to your automation activities. With one button push at the end of the night, you can activate your security system, turn off all A/V equipment, and much more
