HOB-531-D2 SPECIFICATIONS

HANDSFREE SPEAKERPHONE WITH PUSH BUTTON AUTODIAL
## IN OPEN ENCLOSURE STEEL HOUSING

Standard Analog Power, but also available in VoIP versions

Weather and vandal resistant stainless steel handsfree speakerphone in an open enclosure wall mount black housing with telephone symbol on sides. Designed to automatically dial a preprogrammed number from 1-11 digits when the button is pushed. If there is no answer when first number is dialed, phone will reset itself and dial a second preprogrammed number and red/ green LED light provides visual indication of call progress. Capable of dialing a PBX or access number, block or allow incoming calls, and provides call duration time-out from 1-9 minutes or no time-out. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Equipped with a weatherproof, puncture resistant speaker and microphone, industrial quality pushbutton, and tamper resistant security screws. ADA Emergency features Available. Weather resistant open enclosure housing available in black, (-R) red, or (-S) stainless steel.
