## HANDSFREE SPEAKERPHONE PANEL WITH AUTODIAL PUSH BUTTON

*Standard Analog Power, but also available in VoIP versions*

Durable stainless steel flush mount low power consumption handsfree speakerphone that automatically dials a preprogrammed number from 1-11 digits when the button is pushed. If there is no answer when first number is dialed, phone will reset itself and dial a second preprogrammed number and red/green LED light provides visual indication of call progress. Capable of dialing a PBX or access number, block or allow incoming calls, and provides call duration time-out from 1-9 minutes or no time-out. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Equipped with weatherproof, puncture resistant speaker and microphone. Telephone can be flush mounted or installed in our 331-005 weatherproof or 331-HOB weather resistant housing.
