

SSP-511-FD SPECIFICATIONS

HANDSFREE SPEAKERPHONE PANEL WITH KEYPAD & AUTODIAL PUSH BUTTON

Standard Analog Power, but also available in VoIP versions

Durable stainless steel flush mount handsfree speakerphone with keypad and autodial button. Push button to initiate call and red/green LED light provides visual indication of call progress. Telephone can be programmed with call restrictions, ability to dial a PBX or access number, allow or block incoming calls, provide call time-out from 1-9 minutes or no time-out. Autodial button dials a preprogrammed number from 1-11 digits. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Equipped with marine quality chrome tone dial keypad and weatherproof, puncture resistant speaker and microphone. Telephone can be flush mounted or installed in our 331-005 weatherproof or 331-HOB weather resistant housing.
