WPP-531-D2 SPECIFICATIONS

HANDSFREE SPEAKERPHONE WITH 2ND NUMBER PUSH-BUTTON AUTODIAL IN A WEATHERPROOF HOUSING
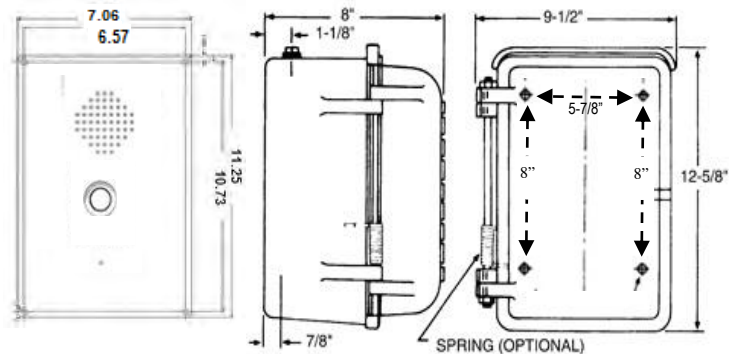

Standard Analog Power, but also available in VoIP versions

Heavy duty stainless steel handsfree speakerphone in a cast aluminum black waterproof housing with TELEPHONE on door and pin latch for wall or pole mount. Designed to automatically dial a preprogrammed number from 1-11 digits when the button is pushed. If there is no answer when first number is dialed, phone will reset itself and dial a second preprogrammed number and red/green LED light provides visual indication of call progress. Capable of dialing a PBX or access number, block or allow incoming calls, and provides call duration time-out from 1-9 minutes or no time-out. Telephone can not be left off-hook, as it detects when called party hangs up and resets itself. Equipped with a weatherproof, puncture resistant speaker and microphone and tamper resistant security screws. ADA Emergency features Available. WPP models available in black, (-R) red, (-Y) Yellow, or (-G) Gray with TELEPHONE or EMERGENCY on door.
