

## PX USB Power Supply 12VDC 1000mA

MODEL NUMBER: **0SU70042**

### Description

The PX USB (0SU70028) remote access unit can be powered using Power Over Ethernet (PoE) or an external power supply. The 0SU70042 external power supply is not included with the PX USB, and is required if Power Over Ethernet (PoE) is not a viable option. It comes with multiple connector types (NEMA 1-15P, CEE 7/16 European Plug, BS1363 UK Plug, AS 3112 Australian Plug), allowing you to use the version appropriate to your power source. Input: 100-240V, 50/60Hz, 0.5A. Output: 12V, 1000mA.

### Features

- External power supply for the PX USB (0SU70028)
- Provides an alternative to power the PX USB instead of Power Over Ethernet (PoE)
- Includes multiple connector types (NEMA 1-15P, CEE 7/16 European Plug, BS1363 UK Plug, AS 3112 Australian Plug)
- Input: 100-240V, 50/60Hz, 0.5A
- Output: 12V, 1000mA

## Specifications

OVERVIEW	
Model Type	Power Supply
Accessories Type	Power Supply
WARRANTY	
Product Warranty Period (Worldwide)	6-month limited warranty

### Highlights

- External power supply for the PX USB (0SU70028)
- Provides an alternative to power the PX USB instead of Power Over Ethernet (PoE)
- Input: 100-240V, 50/60Hz, 0.5A
- Output: 12V, 1000mA

### System Requirements

- PX USB (0SU70028)

### Package Includes

- External Power Supply
- NEMA 1-15P, CEE 7/16 European Plug, BS1363 UK Plug, AS 3112 Australian Plug adapters
