

Air Guard Brush Cable Grommet, Flush Mount

OR-BCGFME5X7

Air Guard Brush Cable Grommet, flush mount Extreme is a heavy duty unit with a two stage, integrated sealing system, EPDM gasket material (UL94HF-1 rated) and standard Air Guard brush technology, to provide the most effective air seal.

A heavy duty, integrated safety cover comes as a standard component. OSHA jobsite statues require open holes in floor panels to be covered. The cover may remain in place until cabling systems are installed and may be saved for future use.

features & benefits

Brush cable grommets help to prevent air loss in plenum cooled floors when access holes are required for cable routing through the floor.

- Provides an exceptional seal around cables for an effective and economical solution towards eliminating bypass air through cable cutouts.
- Provides an energy savings benefit by reducing cool air loss while improving the static pressure to cool data center equipment.
- Helps prevent network equipment from overheating.
- Seals cable openings with an overlapping brush and/or EPDM gaskets to help prevent under-floor contamination.
- Floor tiles can be removed without disconnecting equipment.
- Flame retardant ABS polycarbonate material provides a finished look.
