8x Portable DVD Writer with LED Power Indicator

DVSM-PC58U2VB

The MediaStation 8x Portable DVD WRiter DVSM-PC58U2VB is an affordable, portable DVD writer with a sophisticated LED power indicator. This external DVD writer is the ideal companion for a laptop or Netbook and is a high quality alternative to laptop manufacturers' pricey options. The MediaStation 8x Portable DVD Writer includes two integrated USB cables that snap to the chassis for easy mobility. Powered by your laptop USB ports, no AC adapter is necessary. If the power from a single USB port is insufficient, the red LED will glow, indicating additional power is required. In this instance, the convenient USB Y-cable allows you to connect to a second USB port to power the unit. The MediaStation 8x Portable DVD Writer also includes CyberLink DVD software suite for Windows, letting you easily create CDs and DVDs.

* 480 Mbps is the maximum transfer rate derived from the specifications of the Universal Serial Bus 2.0. Actual transfer rate will vary depending upon environmental factors. Data rate, features and performance may vary based on the configuration of your system and other factors.

* The bundled CyberLink™ software suite is supported on Windows® PCs only. Apple® and Mac OS® do not natively support Blu-ray® with drivers or software. In order to use the Blu-ray hardware functionality on Mac®, a third-party software such as Final Touch™ Pro or Roxio® Toast Titanium is required. Mac systems natively support the CD/DVD portion of this product.
