

## WI-FI ON-THE-GO

### N300 TRAVEL ROUTER

Buffalo's AirStation N300 Wireless Travel Router is a compact, bus-powered solution that allows users to set up a personal wireless connection wherever they go. Ideal for business and personal travel, students and others on-the-go, AirStation N300 Wireless Travel Router is compatible with 802.11b/g/n, so you can easily connect your favorite Wi-Fi devices, such as tablets, smartphones and game consoles, at speeds up to 300 Mbps. With support for multiple levels of wireless encryption and easy AOSS and WPS setup, AirStation N300 Wireless Travel Router provides a reliable and secure wireless connection anywhere you need it. Paired with an integrated USB cable for power and a LAN cable in a docking storage box, it is a complete, compact travel companion, perfect for a brief case, laptop bag or purse. Set up a personal Wi-Fi hotspot or create a secure wireless network anytime on-the-go.

## FEATURES

### FAST WIRELESS CONNECTIVITY

With speeds up to 300 Mbps on the 2.4 GHz band, AirStation N300 Wireless Travel Router provides a fast wireless connection perfect for creating a private wireless network on-the-go, perfect for surfing the web and emailing. Easily connect with your computer, tablet and smartphone devices.

### COMPATIBILITY

Easily upgrade to your network from the old Wireless-G standard and maintain compatibility with existing adapters and devices. AirStation N300 Wireless Travel Router works with any new Wireless-N device as well as the previous generation Wireless-G.

### WIRELESS SECURITY

AirStation N300 Wireless Travel Router features multi-level wireless encryption options to prevent unauthorized access and protect your important data.

- WPA2, WPA-PSK (AES, TKIP), 128/24-bit WEP
- AOSS and WPS push button setup options automatically configure a secure wireless connection

### EASY SETUP

AirStation N300 Wireless Travel Router features an easy-to-use step-by-step setup wizard that guides you through configuration from start to finish. Within moments of opening the box you will have a secure wireless home network.

### COMPLETE SOLUTION

AirStation N300 Wireless Travel Router is paired with an integrated USB cable for power and a LAN cable in a docking storage box, it is a complete, compact travel companion, perfect for a brief case, laptop bag or purse. Set up a personal Wi-Fi hotspot or create a secure wireless network anytime on-the-go.

\*300 Mbps is the maximum wireless signal rate derived from IEEE 802.11n standard specifications achievable using two streams of 150 Mbps each. Actual data throughput and range will vary depending upon network conditions and environmental factors, including volume of network traffic, building materials and construction and network overhead. Maximum speed and range is achievable when used with same enhanced mode technology.
