WINDOWS® STORAGE SERVER APPLIANCE

4-DRIVE HIGH PERFORMANCE
1U RACK MOUNTABLE

Buffalo's TeraStation™ 5400r Rackmount WSS Windows® Storage Server Appliance provides high-performance four drive RAID-based network storage with the power of Windows® Storage Server 2012/2012 R2 Standard Edition. Providing seamless integration with Windows computers and servers, TeraStation 5400r Rackmount WSS incorporates the powerful dual-core Intel® Atom™ Processor D2700 and 4 GB of installed RAM, for class-leading performance: experience maximum network throughput while NAS and iSCSI targeting operations run simultaneously. Additionally, support for NTFS for very specific file-level security and Native Active Directory support provides integration with large Windows networks. TeraStation 5400r Rackmount WSS is an economical turnkey solution for highly reliable and continuously available high-performance network storage for a variety of data needs.

FEATURES

PRODUCT HIGHLIGHTS

- Windows Storage Server 2012/2012 R2 Standard Edition
- Intel Atom processor D2700
- 1U rack mountable
- Dual Intel gigabit NICs
- 2 x USB 2.0 ports and 3 x USB 3.0 ports with accessory support
- Hot-swap SATA hard drives
- RAID 0/1/5/JBOD (Individual Disks)
- Seamless Active Directory integration
- Native NTFS support
- DFS Namespace support
- Data deduplication
- iSCSI target and initiator
- BranchCache
- 10 licenses of NovaBACKUP® Business Essentials v14

UNIFIED STORAGE

TeraStation 5400r Rackmount WSS has simultaneous NAS and iSCSI operation in one unit for simple and cost effective storage and device management. Boost resource flexibility and efficiency and increase space utilization.

HIGH PERFORMANCE

TeraStation 5400r Rackmount WSS Windows Storage Server Appliance features the dual-core 2.13 GHz Intel Atom processor D2700, providing exceptional performance during file transfers and everyday NAS functions. Experience maximum network throughput while NAS and iSCSI targeting operations run simultaneously.

RELIABLE AND SECURE

TeraStation 5400r Rackmount WSS offers high capacity, highly available storage accessible among multiple platforms for seamless centralized storage and backup. Create user and group profiles and control folder and file access to protect business critical content and privacy. Support for multiple levels of RAID provides continuous data protection and increased fault tolerance and data availability.

STORAGE VIRTUALIZATION

Configure TeraStation 5400r Rackmount WSS as an iSCSI target to add affordable virtualized storage to your business network. Storage virtualization serves to decrease IT spending by maximizing the resources offered by modern servers while providing affordable server scalability and reliability. A virtualized environment removes a significant amount of server dependence, shifting the burden to the storage devices.

DATA PROTECTION AND BACKUP

TeraStation 5400r Rackmount WSS features Buffalo's replication technology providing real-time synchronous replication of data for easy, continuous data protection in the event of data loss.

TeraStation 5400r Rackmount WSS is bundled with 10 licenses of NovaBACKUP® Business Essentials v14, providing a complete, all-in-one data protection solution for PCs, storage servers, Exchange servers and SQL databases.

REMOTE FILE ACCESS

TeraStation 5400r Rackmount WSS offers remote access to share your important data for enhanced collaboration and productivity. With FTP/FTPS servers, you can securely access and share files with anyone outside the local network.

WINDOWS® STORAGE SERVER 2012 - STANDARD EDITION

TeraStation™ 5400 WSS Windows Storage Server Appliance is an ideal solution for unified storage by helping to reduce the storage costs associated with building modern datacenters and private clouds. It enhances the traditional file serving capabilities and extends file based storage for application workloads like Internet Information Services (IIS). As a Windows Storage Server Appliance, TeraStation 5400r Rackmount WSS delivers excellent economics for a shared storage solution by leveraging industry standard hardware matched with robust storage capabilities. It delivers continuous availability that is designed to protect from a range of failures and prevent downtime in a scalable and reliable manner. As an affordable turnkey solution, TeraStation 5400r Rackmount WSS offers the advantages of the latest Windows storage innovations at a great value.
