# Sentry Switched CDU

# **Key Features**

- > High Density: Single-power input feed; 24 outlets per enclosure (12 IEC C13 and 12 IEC C19 outlets)
- High Power Distribution:
   208V, 3-Phase power option; 50A
   Delta or 60A Wye or Delta power input feed option.
- Input Current Monitor: Precisely measure the aggregate current draw (in amps) on each phase. On-site verification of the input current with LED digital displays. Remote verification via web browser or serial screen.
- > Remote Power Management:
  Power cycle individual power
  outlets, or groups of power
  outlets, to remotely reboot
  servers and network devices,
  anywhere in the world. Or,
  power-off unused power
  receptacles
- > IP Access & Security: Web interface, SSL, SSH, Telnet, SNMP, FTP, SNTP, Syslog, LDAP, LDAPS, RADIUS, TACACS and RS-232 access
- > SNMP Traps and Email alerts: Provide automated alerts for power and environmental conditions
- > Environmental Monitoring: Each Switched CDU supports two external temperature & humidity probes and reports conditions thru the user interface without the need for additional IP addresses
- > Add an Expansion Module: Connect the Switched Expansion CDU (CX) to a Master unit (CW) for power monitoring of separate power circuits from a single IP address

# **High-Density Power Distribution**

The Switched CDU combines remote configuration and management with power distribution and power and environmental monitoring. Reboot a single or dual-power server with one command. Receive SNMP or email-based alerts when power or environmental conditions exceed thresholds. Assign user specific access rights to designated outlets or groups.

This Switched CDU has a 69" length with top front power cord and was specifically designed for use in standard 42U equipment racks. With a middle LED display, network, and environmental ports the unit can be easily inverted via the web GUI or serial interface to work with either busway or raised floor power sources.

# Additional Benefits:

# **Branch Circuit Protection**

The Sentry CDU Family meets the UL 60950-1 requirement for Branch Circuit Protection > UL-489 rated circuit breakers

# **Input Current Monitoring**

Exclusive Digital True RMS current monitoring is critical to preventing overloads in high-density computing environments. LED digital display on the CDU enclosure report the input current of the branch circuit.

# **Temperature and Humidity**

The Switched CDU supports two external 10ft (3m) probes. Each of these probes measure both temperature and humidity. Receive SNMP-based alerts or email notifications when conditions exceed defined thresholds.

#### **Mixed Outlets**

This Switched CDU combines both IEC 60320/C13 and IEC 60320/C19 switched outlets within a single CDU. For rebooting non-responsive servers & network devices.
