

## BUSBAR SYSTEM OVERVIEW

### INDUSTRY STANDARDS

#### Fuseholders:

UL 4248 Listed; File No. E230163 and E342576  
cUL Listed per CSA C22.2 No. 39; File No. E230163

CSA Certified

#### Flexible Busbars:

UL 67 & 891 Component Recognized; File No. E197039  
cUL Component Recognized per CSA C22.2 No. 29 & 244; File No. E197039

#### Busbar Components:

UL 508 Listed; File No. E123577  
cUL Listed per CSA C22.2 No. 14; File No. E123577

CE

### APPLICATION

Busbar systems distribute power throughout a panel by enabling components to be mounted onto adapters that snap onto three copper bars attached to end supports connected to the back panel. Establishing an electrical connection and mechanically fastening in one step, this design reduces wiring time by up to 40 percent and allows power to be easily distributed to multiple components while being touch-safe rated to IP20. In addition, busbar systems utilize pre-wired adapters and sliding DIN rails, enabling components to be placed closer together while reducing the raceway and bending radius space required. With this arrangement, the 60-mm Busbar System consumes up to 25 percent less panel space than traditional wiring.

- Distributes 3-phase power, up to 690 V, coming from a main breaker or fuse block; can also be used for single-phase or DC power applications
- Convenient solution for delivering power throughout panels containing smaller devices and fed by a 100 A or higher main breaker
- Provides direct mounting solutions for major component manufacturers (ABB, Allen-Bradley, Eaton Cutler-Hammer, General Electric, Merlin Gerlin, Moeller, Siemens ITE, Schneider Square D®)

Drawings can be found on [www.hoffmanonline.com](http://www.hoffmanonline.com)

Technical information and support can be found on Wöhner's website at [www.woehner.com/en/technics/](http://www.woehner.com/en/technics/)

Remove the "HB" prefix from Hoffman's catalog numbers to find the comparable Wöhner part numbers.

### FEATURES

- The 60-mm on-center distance of the busbars minimizes the overall footprint, allowing large ampacities to be distributed in a small space
- Ampacity range of 0–2000 A covers most key applications
- Reduces panel wiring time by up to 40 percent versus conventional wiring
- Electrical and mechanical connections are completed in one step
- The design and layout are efficient and can be changed at any time; innovative terminal solutions connect wires directly to the busbar system; no drilling or tapping is required
- Requires up to 25 percent less panel space than conventional wiring by eliminating some raceway and reducing bending radius space
- Provides the highest standard of safety; designed to be touch-safe to IP20
- Snap-together design makes planning, project design and installation easy; fuse bases and fuse switch disconnectors are simply "clicked" onto the busbars
- Application versatility reduces inventory requirements
- Adapts to most cabinets and enclosures; position busbars vertically or horizontally anywhere within grid dimensions for optimum use of space
- Add components easily to extend the panel; number of connections is minimized
- Shielded connections reduce arc flash danger

### SPECIFICATIONS

- Busbar is constructed of tinned copper for superior corrosion resistance

### ORDERING

For assistance with layouts, drawings and specifying a busbar system, contact Hoffman Customer Service at 763 422 2211.

<sup>a</sup>Consideration should be made for mechanical support of the devices mounted to the busbar system.

**END SUPPORT KIT**

This will be the first part of any system bill of material utilizing rectangular busbar between 12 x 5 - 30 x 10.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB00508	Contains 2 busbar supports (HB01508) and 2 end covers (HB01573)	1 kit	•	•

**UL BUSBAR SUPPORT**

Holds the rigid copper busbars that span the enclosure width or height in place. Systems can be mounted either horizontally or vertically. These supports provide critical bracing against the forces exerted upon the busbar structure in the event of a short circuit condition. While typically mounted to the backpanel of the enclosure, these supports can also be mounted on the frame or support structure of a modular PROLINE™ enclosure system. Each support can be adjusted to accommodate all six rectangular standard sizes of rigid copper busbar.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01508	For busbars 12, 20, 30 x 5/10, 3-pole with internal screw holes	1	•	•

**BASE PLATE**

Serves as an insulator between the current-carrying parts of the busbar structure and adaptor components and the metallic backpanel of the enclosure. This component is required to satisfy UL508 requirements for 2-in. over surface and 1-in. through-the-air arcing distances defined under the UL standard.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01518	For UL Busbar Support HB01508, HB01231, HB01232, 240 x 1100	1	•	•
HB01515	For UL Busbar Support HB01508, HB01231, HB01232, 240 x 700	1	•	•

HB01231 and HB01232 do not require base plate for UL approval.

**EARTH/NEUTRAL BUSBAR SUPPORTS**

These single-pole supports can accommodate all six rectangular sizes of rigid copper busbar to be used for grounding purposes. When mounted immediately below the three-pole support, the 60-mm system spacing is maintained for a 4-pole system.

**BULLETIN: HB2**

Catalog Number	Description	Qty.
HB01601	For busbars 12, 20, 30 x 5/10 1-pole for mounting individually. Includes earth and neutral labels.	1

**END COVER**

Insulates the ends of the three rigid copper busbars installed in the HB01508 busbar support.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01573	End Cover	2	•	•

**STANDARD COPPER BUSBAR**

Manufactured to strict engineering tolerances for the 60-mm busbar system, all busbars are tin-plated copper for superior corrosion resistance in harsh environments.

<sup>a</sup>Shorter lengths available on request.

<sup>b</sup>Up to 2000 A within 800 mm of the power connection for HB01187

**BUSBAR SUPPORT, FOR DOUBLE-T BUSBAR SECTIONS**

This busbar support is suitable for both the 500-mm<sup>2</sup> and 720-mm<sup>2</sup> Double-T profiles. Use to fasten the busbars to a backpanel or modular enclosure system structure. The supports also serve as bracing against the forces present during short circuit conditions.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01876	1-pole, without end cover	1	---	---
HB01231	3-pole, without end cover	2	•	•

**BUSBAR SUPPORT, FOR TRIPLE-T BUSBAR SECTIONS**

Suitable for the 1140-mm<sup>2</sup> Triple-T profile. Use to fasten the busbars to a backpanel or modular enclosure system structure. The supports also serve as bracing against the forces present during short circuit conditions.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01232	3-pole, without end cover	2	•	•

**END COVER, FOR DOUBLE-T AND TRIPLE-T BUSBAR SECTIONS**

Insulates the ends of three rigid copper busbars installed in the HB01231 and HB01232.

**BULLETIN: HB2**

Catalog Number	Description	Qty.	UL508	cUL
HB01234	For HB01231 and HB01232	2	•	•

**BUSBAR COVER, FOR INDIVIDUAL BUSBARS (INDEPENDENT OF THE SYSTEM)**

Plastic cover for standard busbar, 12 x 5 – 30 x 10, as well as double-T and triple-T profile busbars. Provides touchsafe security

while covering unused sections of busbar that can be uncovered during future system expansion.

**BULLETIN: HB2**

Catalog Number	Description	Length (m)	Qty.	UL508	cUL
HB01244	For 12 x 5 mm, 20 x 5 mm, 30 x 5 mm	1	2	•	•
HB01245	For 30 x 10 mm	1	2	•	•
HB01252	For Double-T and Triple-T busbar sections	1	1	•	•

**RESERVE SECTION COVER, 3-POLE**

Use to provide touchsafe protection of all three bars of a 60-mm system. Cover section is sold in 1100-mm lengths and can be cut to

length. Mounts on a set of plastic brackets that clip directly to the busbar of your system.

**BULLETIN: HB2**

Catalog Number	Description	Length (mm)	Qty.	UL508	cUL
HB01025	Cover section. Use only with HB01026.	700	1	•	•

**SYSTEM COVER, 3-POLE**

**COVER CAP, 3-POLE**

**COMPARTMENT SECTION**

**CRITO® PROFILINER CONNECTION MODULE**

The combination of these components provides touchsafe protection over connection sets and terminals that mount on the face of the busbar system. System cover provides space underneath to accommodate these mounted components. Components need to be cut to appropriate length.

**BULLETIN: HB2**

Catalog Number	Description	Length (mm)	Qty.	UL508	cUL
HB01554	Front cover section, 3-pole. Use only with HB01136	1100	1	•	•
HB01555	Top/bottom cover section. Use only with HB01136 or HB01137	1100	1	•	•
HB01136	Set of holders (left and right) for covers sections, 3P	---	1		

Can also be used as reserve section cover. Use to cover most connection sets.

**BULLETIN: HB2**

Catalog Number	Description	H x W (mm)	Qty.	UL508	cUL
HB01539	For 12 - 30 x 5/10, Double-T and Triple-T busbar sections	180 x 200 x 90	1	•	•
HB01596	For 30 x 5/10, Double-T and Triple-T busbar sections	228 x 200 x 90	1	•	•
HB01540	For 12 30 x 5/10, Double-T and Triple-T busbar sections	250 x 200 x 90	1	•	•
HB01756	For 12-30x5/10, Double-T and Triple-T busbar sections	135 x 200 x 90	1	•	
HB01757	For 12-30x5/10, Double-T and Triple-T busbar sections	135 x 200 x 90	1	•	

Provides additional depth to system covers and reserve section covers that are mounted on Double-T and Triple-T profile busbars. Sold in 1200-mm sections, they can be cut to length and mounted to the support structure. Provide additional touchsafe protection and prevent personnel from reaching behind the 3-pole covers where they might come in contact with a live component.

**BULLETIN: HB2**

Catalog Number	Description	Length (m)	Depth (mm)	Qty.
HB0123612	For adjusting installation depth in Double-T and Triple-T busbar sections	1.2	48	2
HB0123712	For adjusting installation depth in Double-T and Triple-T busbar sections	1.2	76	2

At 20-mm wide, this cage-clamp device is the narrowest connection method available. Use to feed or draw up to 48 A (UL) or 80 A (IEC) of power.

*CRITO Profiliner is a trademark of Wöhner GmbH & Co. KG.*

**BULLETIN: HB2**

Catalog Number	Description	W x H (mm)	UL Current Capacity (max.)	IEC Current Capacity (max.)	Qty.	UL508	cUL
HB01563	AWG 16-4	20 x 200	48 A	80 A	1	•	•

### CONNECTING TERMINAL PLATE

Use to connect round conductors or flat flexible conductors to the busbar system and to feed or draw power to, from or between lengths of busbar. Each terminal plate comes with a cover cap providing finger-safe protection.

**BULLETIN: HB2**

Catalog Number	Description	W x H (mm)	Current Capacity (max.)	Qty.	UL508	cUL
HB01240	AWG 10 – 1/0, s(r), f, f+AE, la. Cu 6 x 9 x 0.8	54 x 200	300 A	1	•	•

### CONNECTION SET, 3-POLE

Modular design allows phase connections to be spread out along the busbar structure. Each phase conductor can be run parallel from the upstream or downstream device. These connection sets do not come with a cover cap – use Cover Cap or System Cover to gain finger-safe protection.

**BULLETIN: HB2**

Catalog Number	Description	Current Capacity (max.)	Qty.	UL508	cUL
HB01537	CU and Al <sup>a</sup> AWG 4/0 - 600MCM, s(r), s(s), f	560 A	1	•	•
HB01538	Flat busbars up to 32 x 20 mm	800 A	1	•	•

<sup>a</sup> Not maintenance-free when aluminum conductors are used.

Cover cap for HB01537 and HB01538 is HB01539 when the phase conductors are butted side-by-side (not spaced apart).

### UNIVERSAL CONDUCTOR TERMINAL

Terminals for round American Wire Gauge (AWG) conductor are used to either supply power to or draw power from the busbar system. These parts must match the thickness of the busbar being applied in your system. Cover caps are sold separately. Sold in sets of three terminals.

**BULLETIN: HB2**

Catalog Number	Description	Connection AWG (min.-max.)	Terminal Space H x W	Current Capacity (max.)	Qty.	UL508	cUL
HB01284	5-mm flat busbars	16-6	7.5 x 7.5 (mm)	180 A	3	•	•
HB01285	5-mm flat busbars	12-2	10.5 x 11 (mm)	270 A	3	•	•

HB01934	For connecting flat busbars and flexible copper busbars	800-1600	81 x 20 - 42	1600 A/2500 A	3	•	•
HB01935	For connecting flat busbars and flexible copper busbars	1000-2000	101 x 20 - 42	1600 A/2800 A	3	•	•

HB01936, HB01911, HB01934, HB01935: current capacity for center feeding

Meets UL508 when properly installed.

### PROFILE TERMINAL, FOR TRIPLE-T BUSBAR SECTIONS

Terminals for insulated flat flexible busbar used to either supply power to or draw power from the busbar system. Cover caps are sold separately. Sold in sets of three terminals.

**BULLETIN: HB2**

Catalog Number	Description	Connection Cross Section (mm)	Terminal Space W x H (mm)	Current Capacity (max.)	Qty.	UL508	cUL
HB01513	For Triple-T busbar sections	320-860	41 x 23 - 45	1600 A	3	•	•
HB01008	For Triple-T busbar sections	500-1260	64 x 23 - 45	2500 A	3	•	•
HB01186	For Triple-T busbar sections	1200-3600	101 x 23 - 45	3200 A	3	•	•

Meets UL508A when properly installed.

### BUSBAR CONNECTOR, FOR SAME-SIZE BUSBARS

Use to extend busbar lengths or to install a shipping split in a modular enclosure assembly.

**BULLETIN: HB2**

Catalog Number	Description	Length (mm)	System Spacing (mm)	Current Capacity (max.)	Qty.	UL508 <sup>a</sup>	cUL

HB01275	Triple-T Section	150	100 - 110	2500 A	3	—	—

<sup>a</sup>Meets UL508 requirements when phase separators are installed.

**PHASE SEPARATORS, FOR UL INSTALLATION OF END-TO-END BUSBAR CONNECTION, 3-POLE**

Satisfy the through-air arcing distances of the UL508 standard when using end-to-end busbar connectors, for the same-size busbars.

**MOTUS® CONTACTRONCONTROL, HYBRID MOTOR STARTER FOR 60MM SYSTEM CLASSIC**

Woehner USA's hybrid motor starter, MOTUS® ContactronControl offers system designers space and labor savings by making up to 75% more space available on a busbar system compared to conventional starter combinations. It delivers versatile, reliable and long-lasting motor control with a product lifespan 10 times longer than conventional contactors.

MOTUS® ContactronControl is a trademark of Wöhner GmbH & Co. KG

**EQUES® EASYCONNECTOR EMPTY**

DIN rail adapters for components that have a 35-mm symmetrical DIN rail mounting provision. Available in 45-mm or 54-mm widths and 200-mm or 260-mm heights with one or two DIN rails. Most commonly used to add width to a powered EQUES EasyConnector for reversing contactor applications or to mount other components that are wider than 81 mm. The side-mounted module adds width to any adapter in 9-mm increments and maintains the IP20 fingersafe design of the busbar system.

**AMBUS® EASYLINER, BUS-MOUNTING FUSE HOLDER, 3-POLE, 3-POLE ISOLATION**

Busbar-mounted 3-pole fuse holder for UL recognized midget (10 x 38 mm) and UL Listed Class CC fuses. Holders are offered with or without open fuse indication. In indication units, the LED indicator lamp will glow when the fuse is open. At 27 mm wide, the AMBUS EasyLine is half the width of traditional 3-phase holders of the same class. Indicator units operate at voltages between 110 and 690 V.

**QUADRON® CROSSLINK CARRIER CLASS J, CONNECTION BOTTOM OR TOP**

The QUADRON® CrossLink Carrier Class J fuse holder allows 30, 60, 100 and 200 amp 3-phase fuse holders to be mounted directly to the 60mm classic busbar structure. The cover design provides

touch-safety and allows for quick fuse change-out with its integral puller. Easily reversible connection on bottom, top or 3-pole busbar sections.

*QUADRON® CrossLink Carrier is a trademark of Wöhner GmbH & Co. KG*

**FLEXIBLE BUSBARS, CU TINNED, INSULATED, 3-M LONG**

**APPLICATION**

Flat, flexible busbar complements the space-saving nature of the 60-mm busbar system. Unlike traditional round conductors, flexible busbar can be folded and shaped without regard to AWG bending

radius issues. Choose connection sets that are designed to accept flexible busbar, or drill the flex for use with a stud connection (on your breaker, VFD, SCR or other system component.)

**AMBUS® J-CARRIER, CLASS J FUSE HOLDER, CLIP-ON MOUNTING, MODEL WITH LIGHT INDICATOR 110-600 VAC/DC**

DIN Rail mountable fuse holders for 30 and 60 A ferrule size UL Class J fuses. Offered in single pole, 2-pole or 3-pole configurations with LED open fuse indication. Indicator operates on systems between 110 and 600 V. The LED lamp will glow when the fuse is open (blown). Holders meet IP20 touchsafe design standards. *AMBUS J-Carrier is a trademark of Wöhner GmbH & Co. KG.*

**AMBUS® EASYSWITCH**

DIN Rail mountable fuse holders for UL recognized Midget (10 x 38 mm) dimension cylindrical fuses. Offered in single pole, 2-pole or 3-pole configurations with or without LED open fuse indication. Indicator operates on systems between 110 and 690 V. The LED lamp will glow when the fuse is open (blown). Holders meet IP20 touchsafe design standards.

**ACCESSORIES FOR AMBUS® EASYSWITCH, CONNECTION BOTTOM OR TOP**

Comb-type busbar is an alternative to point-to-point wiring on the primary side of the 10x38 and Class CC fuse holders that have an 18mm pitch. It eliminates the need for a power distribution block and wiring duct to contain the AWG wires feeding multiple fuse blocks. Available for both 1-pole and 3-phase configurations. *AMBUS® EasySwitch is a trademark of Wöhner GmbH & Co. KG*

**PV FUSE HOLDERS, BUSBAR COMBINED DC CURRENT**

Fuse holders for mounting circuit protection devices for the wires and cables associated with photovoltaic installations. These devices allow the combining of current on metric dimension busbars. The design eliminates the bending radius space associated with large cables.
