Features and Benefits	Open-head design with easily detectable slot opening allows for swift and easy insertion		
	Pre-lock feature allows for a temporary holdThe large ribbed tail permits an ergonomic installation		
	Two rails on the strap ensure guidance through the cable tie head		
Product Description	Q Ties have a distinctive open-style head, a pre-lock function, and a large ribbed tail. The easily detectable slot		
	opening offered with the tail and tie head offers ease of placement especially when working with gloves is necessar		
	or for blind applications with limited view of the installation. The pre-lock feature allows for temporary holding of cab and wire bundles, permitting additional cables and wires to be placed without destroying the cable tie. Q Ties can		
	tensioned by hand or with one of HellermannTyton's mechanical cable tie application tools.
