

Siemon's new MAX TurboTool significantly reduces the time associated with the termination of category 5e and 6 UTP MAX outlets. In contrast to single conductor punchdown tools which require eight individual termination cycles for each outlet, the MAX TurboTool seats and cuts all 8 conductors with a single action.

The tool supports termination of all category 5e and 6 MAX outlets – flat, angled and keystone

The rear cable channel provides cable access for the full range of category 5e and 6 UTP cable sizes while the side slots provide clearance for laced twisted-pair conductors

Ordering Information

MAX-TT – MAX® TurboTool™

MAX-TTREP – Replacement MAX TurboTool Cartridge Kit - Includes outlet nesting die, termination die, attachment hardware and Allen wrench
