VersaFit™ In-Wall Systems by Crimson

The VersaFit™ In-Wall System by Crimson is a complete display mounting system, perfect for pre-construction and retrofit installations.

Designed to blend flawlessly with existing décor, hiding cables and associated hardware, VersaFit™ mounts securely behind almost any wall-mounted display. Compatible with over 20 standard Crimson mount models including ultra-flat, flat, tilt, recessed and multi-angle articulating models, VersaFit™ is the only in-wall display mounting solution on the market that has knockouts compatible with all electrical codes in the US.

- **Appearance**
  Compatibility with nine (9) standard Crimson multi-angle articulating mounts and four (4) ultra-flat models eliminates the need to choose between form and function.
- **Compatibilty**
  Crimson currently manufactures over 20 standard VersaFit™-compatible wall mounts, providing creative solutions for most installations.
- **Electrical Code Friendly**
  VersaFit™is the only product on the market that is compatible with all US codes for standard electrical boxes, requiring zero installer modification.
- **Flexibility**
  Simply install the VersaFit™ box as a part of pre-wiring install and then determine the best mount type later, when the displays are ready for installation. Retrofit projects are just as simple.
- **Ease**
  VersaFit™ comes with built-in leveling guides for 1/2" and 5/8" drywall for accurate positioning during pre-construction installation.

Functional Specifications

Depth in wall: *3.5" (89mm)*
