

Model NV-RM 15

Rackmount Video/Audio Transceiver System

Features:

- Ideal for Video/Audio distribution or video-conferencing connectivity
- Standard 19in (482mm) 5.25in (133mm) 3U high
- Supports up to fifteen NV-418AR or NV-518AR Video/Audio Transceivers
- No cooling fans required
- Power supply included
- Transceivers sold separately
- Limited lifetime warranty

The NVT Model NV-RM 15 Rackmount Video/Audio Transceiver System allows the co-location of up to fifteen NVT Video/Audio Transceivers in one compact enclosure. Panels can reside in the same rack as other equipment, such as switchers, multiplexers, video conferencing equipment, etc.

Power is provided by an external Class II transformer (included). Total power consumption is less than 25 watts, allowing installation in wiring closets or other high-density locations.
