

High-performance NVR in a small size

The Milestone Husky M10 is a sleek, fanless network video recorder (NVR) combining high-performing hardware with Milestone video management software. The unit has optimized hardware specifications and requires no training to set up or use, making it an easy choice for entry-level surveillance. With **support for the industry's best video surveillance mobile app**, Milestone Husky M10 is a complete solution in a small package.

Product highlights

Simple set up and easy to operate

- Plug in and operate within minutes
- Automatic camera discovery of up to eight connected cameras
- Simple to operate without any training

Entry-level surveillance functionality

- Live video from all cameras in one viewing interface on a network computer*
- Simple view and playback
- Easily export video for forensic evidence and investigation
- Pan-tilt-zoom (PTZ) controls

Scalability with Milestone Interconnect™

- Connect multiple Milestone Husky M10 NVRs for unlimited scalability and cost effectiveness
- Create simpler solutions at remote sites and still take advantage of the premium XProtect® Corporate features from a primary central location

Helping you do more

- User management capability for the administration of multiple system operators
- Built-in motion detection
- Add and edit views
- Works with more than 2,600 native camera drivers

Milestone Husky M10 supports all Milestone clients

XProtect Smart Client support delivers a defined feature set specifically designed for the Husky M10.

*Not possible with a monitor connected directly to the Milestone Husky 10.
