Bring the display to the source without having to move a 50" display. With the ability to not only test resolutions up to 1080p, 1920x1200 and 3D but the ability to learn any display's EDID. The AT-DIS7-PROHD is a testing device that can duplicate hot plug events and validate audio signal presence. Ensure no time is wasted on an installation or tech call with the Atlona 7" Portable Testing Monitor.

Diversify
With built in format compatibility, connect any HDMI, DVI (with optional adapter), VGA, or Component (with included adapter) device to the AT-DIS7-PROHD for testing of resolutions up to 1080p or 1920x1200.

3 in 1 EDID testing
With the built in EDID learning capability the AT-DIS7-PROHD has the ability to test the compatibility of the display, the source, and the connecting cable.

Portability
With the optional rechargeable battery (AT-BAT-DIS7PRO) the DIS7-PROHD becomes fully portable with no power cords or wall plugs to limit range or function.
