

## Model 38-47-HLA Retrofit Door for Oberon 1047

Category: Retrofit Doors for Oberon Enclosures

This locking retrofit door is designed to provide a convenient way to mount and secure wireless access points in 1047 Series AP enclosures. To remove the old door, simply unlock the door, open the door to a 90° angle, align the tabs of the door mount to the slots in the back-box hinge opening, and slide the door forward. Simplify equipment replacement without lifting ceiling tiles.

### Features & Benefits

- Easily replace door to migrate to a new access point or antenna
