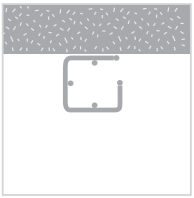
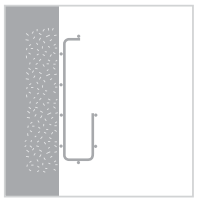
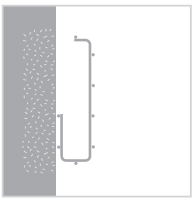
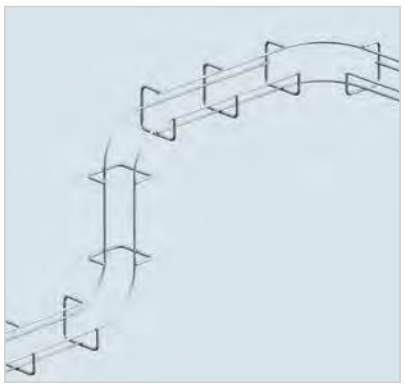
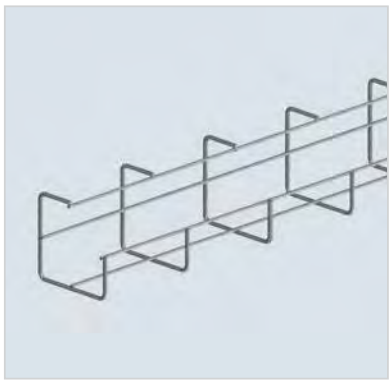
CFG
CABLOFIL G-TRAY AND G-MINI











- Unique curved top allows for direct attachment to machinery, ceilings or walls.
- Use CE40 for CFG support attachment.
- 3" overhang on G-Tray allows for direct-mounting in many configurations.
- Unique crosswire design easily bends and lies flat when mounting.
- Use CE25 for G-Mini support attachment.
- G-Mini is a simple and secure routing for small cable runs.
- Use SWK for splicing.
