

INTUITY AUTOMATION CONTROLLER

HA7000 | [On-Q](#)

FEATURES & BENEFITS

The brain of the Intuity system, the HA7000 Automation Controller connects and establishes communication between all integrated subsystems while also allowing personalization options. Fitting within an On-Q structured wiring enclosure, it connects directly to the On-Q Digital Audio and Intercom systems. The HA7000 requires minimal programming while also allowing a robust set of personalization options for a system's custom needs.

Check out the [Intuity mobile app](#).

- Connects On-Q broadcast intercom, video door entry, digital audio, and camera solutions as the brain of the Intuity system
- Communicates with RFLC lighting controls and Z-Wave RF peripherals through use of Intuity bridges
- Connects to third party security alarm systems
- Installs easily into On-Q structured wiring enclosures

SPECIFICATIONS

GENERAL INFO

Cable Type: Cables not included

Size: 6.25" x 7" x 3.25"

Product Series: Intuity

Type: Intuity Automation Controller, System Controller

Special Features: Control center, Home intercom interface, Home network interface, Alarm system interface

TECHNICAL INFORMATION

Current Max: 350mA

Humidity: Up to 90% Relative Humidity (non-condensing)

Mounting: Mounts in a structured wiring box with a 2-by bracket

Operating Temperature (Celsius): 0° ~ 43°C

Rated Voltage: 12 VDC

Watts: 4W
