

DataComm Electronics most economical structured-cabling solution. Surface mounting simplifies installation while allowing signal distribution up to 8 locations. The unique patented design provides all these benefits in one small enclosure. This product is an economical solution for multi-family and single-family homes and is ideal for existing construction or installing phone and video services

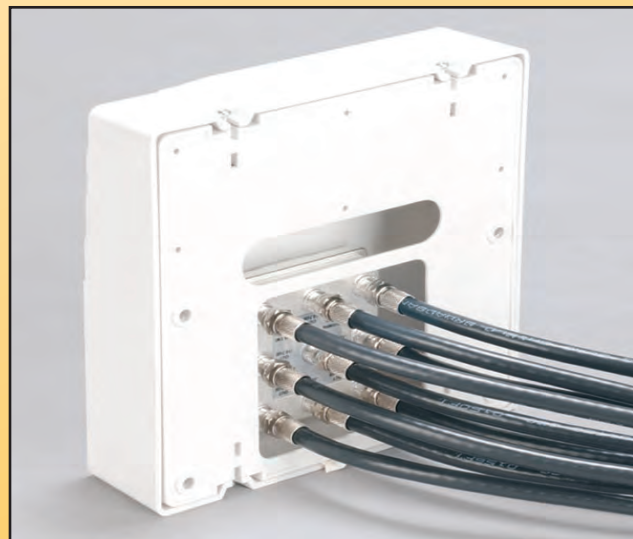

Features:

- Up to 4 phone line inputs to 8 locations
- 1 video input and 8 video outputs with a frequency response up to 2.4 GHz for satellite and cable TV
- RJ45 test port

Surface mount and convenient cutouts in the mounting plate:

- Facilitate cable runs
- Conceal cables from view
