

Specialty Sensors

For additional security and protection against property damaging events, Interlogix™ offers a variety of sensors for diverse applications. All solutions provide accurate, wireless sensing that installs easily and delivers reliable performance.

SPECIALTY SENSORS

Garage Door/Tilt Sensor

- Compact size allows mounting directly on inside of garage door; no wiring needed
- Event-driven updates on door status
- Supervisory reports on battery and transmitter condition
- Sensor cover tamper for added security
- Sends open signal when door opens beyond a 35° angle
- 5+ year battery life (based on usage)

Ordering Information

TX-8010-01-1 DesignLine Garage Door Sensor

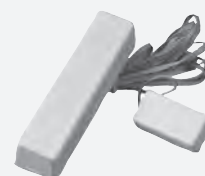

Tri-Zone Sensor

- Easily protects three zones in close proximity of each other, reducing installation time
- Easy garage door protection secures garage doors using “tilt” sensing capability w/no magnet required
- Programmable tilt sensor output can instantly send a signal when it detects motion, or delay signal for up to one minute

Ordering Information

TX-8300-01-1 DesignLine Recessed Door/Window Sensor, White

Water Sensor

- Provides fast notification of leaks for quick response and damage control
- Sensor directly connected to wireless transmitter
- Low-battery reporting indicates when batteries need replacing before they expire
- Ideal for basements, laundry rooms, bathrooms, kitchens or any other place susceptible to water damage or flooding

Ordering Information

60-744-95R (NX-695) SAW Water Sensor

SAW Freeze Sensor

- Detects low temperature conditions and transmits an alarm signal to the panel when temperature drops below 41°F, restores when temperature rises above 50°F
- Alkaline batteries with a lifespan of up to 8 years
- Monitors up to 900 square feet
- Great for second homes and cabins

Ordering Information

60-742-95R SAW Freeze Sensor

Crystal Freeze Sensor

- Detects low temperature conditions and transmits an alarm signal to the panel when temperature drops below 45°F
- Lithium battery with a lifespan of up to 10 years
- Cover tamper
- Monitors up to 900 square feet
- Great for second homes and cabins
