Watch List Screening Services and Interfaces (for use with EasyLobby SVM)

Use the watch list screening services for online checks against third-party screening for government denied parties and sexual offenders at the time of visitor check in. **Note:** These are available in the United States only.

Government Denied Party Screening

Online Visual Compliance/Government Denied Party Screening service checks each visitor against over 50 government watch lists. Matches are displayed in about two (2) seconds. Requires an annual, per SVM station, subscription.

Sexual Offender Screening

Online screening service checks each visitor against all 50 states' registered sex offender databases. Matches are displayed in about two (2) seconds. Requires an annual, per SVM station, subscription.

Watch List Screening Services

☐ EL-CUST   Government denied party screening service per station. Includes US domestic and international lists in query. One (1) year subscription.

☐ EL-CUST-BASIC   Basic Government denied party screening service per station. Queries US domestic lists only. One (1) year subscription.

☐ EL-SOS-NONK12   Sex Offender screening (per station) – non K12 schools. One (1) year subscription.

Hospital Patient Data Interface Software

Use the **HL7** interface for a real-time custom interface to HL7-based patient information systems. With HL7 Hospitals easily keep the EasyLobby database up-to-date for patient admissions, changing rooms, and discharges.

Note: This is not an off the shelf product and will require professional services assistance to complete the integration. Please contact your sales manager to quote the integration. *Follow on enhancements or modifications to an existing HL7 integration will require additional professional services and may incur an additional fee.*

☐ EL-PS31-PACS (Contact Sales Manager for Details)   HL7 interface (hospital patient data) per database

eKiosk Self-Registration (for use with EasyLobby SVM)

If not using EasyLobby SVM client in self-registration mode, customers can use eKiosk™ for visitor self-registration on tablet computers. Please note that eKiosk is not compatible with hardware/ ID scanners listed in this document; all information must be manually entered by the visitor.

The EasyLobby eKiosk software:

- Runs on Windows, an Apple® iPad®, or an Android® tablet device.
- Configurable self-registration screen
- Provides ability to display PDF or HTML file for visitors to review and acknowledge or agree to terms.
- Alerts employee being visited via email when visitor has completed self-registration process and is checked-in.
- Badge printing when connected to a workstation installed with SVM

Note: Due to the limitations of using eKiosk, it is recommended that you consult with a sales person prior to ordering.

Web-based self-registration software for tablets
