- Enclosure unit with locking lid
- USB charger enclosure mount
- Combination cable lock
- (2) Keys
- Owner's manual

Description

The CSD1006USB 10-Device Desktop USB Charging Station provides USB charging, secure storage and cord management for up to 10 tablets, iPads and e-readers up to 10.5 inches. It's recommended for schools, offices, warehouses, retail outlets, worksites, healthcare facilities and anywhere else multiple mobile devices are used.

Devices fit into slots 1.25 inches wide and plug into the 10 USB ports as needed for proficient charging. The CSD1006USB delivers up to 5V 2.4A per port, which is plenty of power for charging battery-intensive devices. To protect your devices, the CSD1006USB prevents them from drawing more power than it is capable of supporting and stops charging a device when the device's battery is at 100%.

The CSD1006USB locks with the included keys to help prevent theft, damage or tampering. A cable with combination lock is also included to secure the charging station to a desk, table, cart or other flat surface. The six-foot AC input cord with NEMA 5-15P plug helps you place the charging station in a convenient location. Storage shelf dividers are easily removed to accommodate thicker devices. Cabling is secured beneath the shelf tray to alleviate clutter.

iPad is a registered trademark of Apple.

Features

Convenient USB Charging

- 10 USB ports for charging tablets, iPads and e-readers up to 10.5 in.
- Devices fit into slots 1.25 in. wide
- Device USB charge cables plug into USB ports
