

## COMPLETE LIST OF TUMBLER SERIES

P-14-141/164 series			P-14-194/196 series			P-16-141/144 series		
Land Rover, Range Rover door locks using X170 type keys			Jaguar Tibbe – glove box locks only			Datsun / Nissan, Subaru - using 6 cut keys except ignition locks (X6-X7-62DT-62DU type keys)		
Tumbler #1		P-14-141	Tumbler #1 *		P-14-194	Tumbler #1 *		P-16-141
Tumbler #2		P-14-142	Tumbler #2 *		P-14-195	Tumbler #2 *		P-16-142
Tumbler #3		P-14-143	Tumbler #3 *		P-14-196	Tumbler #3 *		P-16-143
Tumbler #4		P-14-144	Thin spacer		P-18-125	Tumbler #4 *		P-16-144
Tumbler #1 alternate *		P-14-161	Thick spacer		P-18-126	Springs	P-16-105 P-00-100	RP6546
Tumbler #2 alternate *		P-14-162	NOTE: These locks do not use tumbler springs. * These tumblers are discontinued when out.			* These tumblers are discontinued when out. Can substitute P-16-151/154 series		
Tumbler #3 alternate *		P-14-163	Keying kit previously available containing both normal and glove box tumblers - A-14-108			Keying kit containing this series only (discontinued when out)		A-16-104
Tumbler #4 alternate *		P-14-164	<b>P-14-201/203 series</b>			<b>P-16-151/154 series</b>		
Springs		P-31-100	British Cars (MG, Triumph, and others), Volvo using keys such as S71B, 62DP, 62DR, & others (code series FS, FP, FR, and others)			Datsun / Nissan, Subaru - using 6-cut keys (X6-X7-62DT-62DU type keys)		
* These tumblers are discontinued when out.			Tumbler #1		P-14-201	Tumbler #1		P-16-151
Keying kit containing this series only			Tumbler #2		P-14-202	Tumbler #2		P-16-152
Combination keying kit containing this and P-14-121/125 series only			Tumbler #3		P-14-203	Tumbler #3		P-16-153
Combination keying kit containing this and other series (disc. when out)			Springs		P-14-200	Tumbler #4		P-16-154
<b>P-14-191/193 series</b>			Combination keying kit containing this series and P-14-211/213 series		A-14-111	Springs	P-16-105 P-00-100	RP6546
Jaguar Tibbe – all except glove box locks			Combination keying kit previously available containing this and other series - A-14-230			Keying kit containing this series only		
Tumbler #1		P-14-191	<b>P-14-211/213 series</b>			Combination keying kit containing this and other series (old version, discontinued when out)		
Tumbler #2		P-14-192	British Cars (MG, Triumph, Ford, and others) using keys such as F68YT – FT code series)			Combination keying kit containing this and other series – new version		
Tumbler #3		P-14-193	Tumbler #1		P-14-211	Combination keying kit containing this and other series - A-16-101		
Thin spacer		P-18-125	Tumbler #2		P-14-212			
Thick spacer		P-18-126	Tumbler #3		P-14-213			
NOTE: These locks do not use tumbler springs.			Springs		P-14-200			
Keying kit containing this series only			Combination keying kit containing this and P-14-201/203 series		A-14-111			
Keying kit previously available containing both normal and glove box tumblers - A-14-108 (discontinued when out)			Combination keying kit previously available containing this and other series - A-14-230					
			<b>P-14-221/224 series</b>					
			British Cars (MG, Triumph, and others) using keys such as M81G – NH code series)					
			Tumbler #1 *		P-14-221			
			Tumbler #2 *		P-14-222			
			Tumbler #3 *		P-14-223			
			Tumbler #4 *		P-14-224			
			Springs		P-14-200			
			* These tumblers are discontinued when out.					
			Combination keying kit previously available containing this and other series - A-14-230					

**IMPORTANT:** The Illustrations in this section are provided only as a general guide to the appearance of the tumblers used in each series. Illustrations are not to size or depth scale. There may also be other minor non-critical differences between the illustrations and actual tumblers.

## ASP PART NUMBERING SYSTEM

### The ASP Part Numbering System

Working with the ASP part numbers is easier if you have a basic understanding of the part numbering system, explained here:

The first letter or letters of the part number identify what type of product the part number is:

A	Keying kits and parts assortments
B	Luggage compartment locks
C	Ignition locks
D	Door locks (including complete locks that include the door handle)
DH	Door handles (except complete locks that include the door handle)
DP	Door locks (keyed alike pair)
E	Engine compartment locks
F	Fasteners (including lock retaining clips, shear-head bolts, door panel fasteners, etc.)
G	Glove compartment and stowage locks
KB	Key blanks
P	Lock service parts (including tumblers, face caps, and other parts)
RK	Remote head key blanks
S	Lock sets
T	Fuel tank locks
W	Ignition switches (wiring assembly only without lock cylinder)

The second two digits of the part number tell you the PRIMARY brand of vehicle that the item is used on:

00	Various cars
11	Alfa Romeo
12	Audi
13	BMW
14	British Cars (Austin, Jaguar, Land Rover, MG, Range Rover, Triumph)
15	British Chrysler (Plymouth Cricket, Sunbeam, Hillman)
16	Nissan / Datsun / Infiniti
17	Fiat
18	European Ford (Capri, Fiesta, Merkur)
19	Honda / Acura
20	Mazda
21	Mercedes-Benz
22	Mitsubishi
23	GM Europe (Cadillac Catera, Pontiac Lemans, Opel)

24	Isuzu (including General Motors brands)
25	Peugeot
26	Porsche
27	Renault
28	Saab
29	Subaru
30	Toyota / Lexus / Scion / Hino truck
31	Volkswagen
32	Volvo
33	Suzuki
34	Lada
35	Lancia
36	Hyundai
37	Daihatsu
38	Citroen
39	Yugo
40	Kia
41	General Motors USA (Buick, Cadillac, Chevrolet, GMC, Oldsmobile, Pontiac)
42	Ford / Lincoln / Mercury (USA)
43	American Motors (including some Heavy Trucks and Jeep)
44	Chrysler / Dodge / Jeep / Plymouth
45	Skoda
49	Saturn
50	Daewoo (including Chevrolet Aveo, Saturn Vue, other General Motors brands)
55	Renault truck (including some Mack trucks)
56	Freightliner truck
57	Kenworth truck
93	Harley Davidson Motorcycle
94	Honda Motorcycle
98	Yamaha Motorcycle

For example, if you have part number C-30-107, by understanding the part numbering system you will know that the part is an ignition lock (first letter C), which fits a Toyota (second two digits 30).

There are exceptions to this system created by the same part being used on more than one brand of car. Also some parts are used in more than one place on the car – for example, B-14-210 is numbered as a luggage compartment lock, but also is used as an ignition lock or door lock on some cars.

## ASP PART NUMBERING SYSTEM

The same part being used on more than one brand of car is explained by lock families, as follows:

**Audi** - also found on some Porsche and Volkswagen

**Ford USA** – also found on some Mazda and Nissan

**Honda / Acura** - also found on some Isuzu

**Mazda** – also found on some Chrysler imports, Ford imports, General Motors imports, GEO, Mitsubishi, Suzuki

**Nissan** - also found on some Subaru and Isuzu truck

**Toyota** – also found on some Chrysler imports, Daihatsu, General Motors imports, GEO, Hyundai, Isuzu, Kia, Mazda, Mitsubishi, Suzuki.

**Volkswagen** - also found on some Audi and Porsche (tumblers also used on BMW)

You will also find some parts that are used among the brands of the following groups of cars:

**British cars** - Aston Martin, Austin, English Ford, Jaguar, Jensen, Land Rover, MG, Morgan, Range Rover, Rover car, Sterling car, Triumph, TVR, Volvo.

**French cars** - Peugeot, Renault, Citroen

**German cars** - Audi, BMW, Daewoo, General Motors (Cadillac Catera, Chevrolet Aveo, Pontiac Lemans, others), Mini, Porsche, Mercedes-Benz, Volkswagen

**Italian cars** - Alfa Romeo, Bertone, Ferrari, Fiat, Iveco, Lada, Lamborghini, Lancia, Maserati, Pininfarina, Yugo

## Lockcraft Part Numbers

The first two letters of the part number identify what type of product the part number is:

DL	Door lock
LC	Ignition lock
LS	Lock set
RP	Lock service parts (including tumblers, face caps, and other parts)
SK	Keying kits and parts assortments
TL	Luggage compartment locks

Lockcraft part numbers that end in “U” are uncoded locks.

There have been many changes to the Lockcraft part numbers over the past years, explained as follows:

Most old Lockcraft part numbers had no letter prefix. For example, old part number 1426 was changed to LC1426 to identify the type of product.

Some old Lockcraft part numbers had a letter prefix “A”, which was changed to “RP”. For example, part number A6001 was changed to RP6001. This could be confusing if you have an old Lockcraft or All Lock keying kit or parts assortment which identified the parts inside by the letter prefix “A”. When reordering simply change the “A” to “RP”.

Some old Lockcraft part numbers had a digit “3” at the end of the part number, which designated poly bag packaging. For example, part number LC14263 designated the LC1426 ignition lock in a poly bag. The currently used part numbers now eliminate the “3” at the end and using the example LC14263 is now simply LC1426.

Some old Lockcraft part numbers had a digit “8” at the end of the part number, which designated that it was an uncoded lock. For example, part number LC14268 designated the LC1426 ignition lock in uncoded form. The currently used part numbers now use “U” at the end of the part number instead of the “8”. Using the example LC14268 is now LC1426U.

## PART NUMBER LISTING and POPULARITY RATINGS

### Part Number Listings and Popularity Ratings

Pages 214-233 contain a complete listing of ASP part numbers, with the 2008 popularity rating for each part number. The popularity ratings are explained as follows:

**A** = Most popular items (lock cylinders and replacement parts)

**B** = Second most popular group of lock cylinders

**Y** = Replacement parts (keying kit refill tumblers, face caps, etc.), popularity equivalent to B-rated lock cylinders

**C** = Third most popular group of lock cylinders

**Z** = Replacement parts (keying kit refill tumblers, face caps, etc.), popularity equivalent to C-rated lock cylinders

**H** = Items not recommended for stock by distributors, these parts are normal stock items for the ASP warehouse and available for drop shipments (HI-SPEED delivery). Orders must be placed through your distributor, and are subject to stock on hand at ASP. Some distributors may have selected H-rated items in stock.

**S** = Special order items only, may not be in stock at ASP. These items may be subject to minimum order quantities if needed. Some distributors may have selected S-rated items in stock.

**DWO** = Discontinued when out. Some items may still have limited stock at ASP or at some distributors, but will not be restocked when existing supplies are sold out.

ASP products are sold through the network of locksmith supply distributors located throughout the USA and Canada.

With over 4,000 different part numbers in our range, it is impossible and impractical for distributors to keep every part number in stock. Thus we have assigned each of our part numbers a popularity rating to assist distributors in keeping stock. We have implemented new distributor stocking programs based on these popularity ratings. Please check [www.carlocks.com](http://www.carlocks.com) for the most current information about our distributor stocking guidelines. ASP is working closely with our distributors to provide you the fastest delivery possible at the lowest possible cost.

Distributors who make a commitment to keep stock according to our recommendations are listed on [www.carlocks.com](http://www.carlocks.com). This list is subject to change at any time. Distributors who do not keep the stocking commitment will be removed from the list.

### Explanation of other notes on the part number listing

a. Some items have (now use ...) to the right of the part number, with a rating of DWO.

For example: A-13-105 (now use A-31-110) – this means that A-13-105 has been superseded by A-31-110.

b. Some items have (substitute ...) to the right of the part number, with a rating of DWO.

For example: B-19-154 (substitute B-19-155) - this means that you can substitute B-19-155 for B-19-154, but there is some difference between the two parts. A complete listing of these part numbers with a brief explanation of the difference between each superseded part and the replacement part is provided on pages 234-237.

c. Some items have (see ...) to the right of the part number, with no popularity rating.

For example: B-16-105 (see B-16-205), with no popularity rating. Then go to B-16-205 and you will see it listed as B-16-205 (B-16-105) with the popularity rating of B. This is a result of our consolidating some similar interchangeable part numbers. In this example, whether you order B-16-105 or B-16-205, you will get the same part at the same price. A complete listing of these part numbers is provided on pages 238-239.
