Plymouth	Colt hatchback & sedan (import)	1985-88	Coded lock without pawl	D-22-109	If original pawl cannot be reused, use P-22-322 (RH) or P-22-323 (LH) Use face cap P-30-211 (chrome) or P-30-215 (black) Use tumbler series P-30-141/144			
Plymouth	Colt station wagon (import)	1985-90						
Plymouth	Colt hatchback & sedan (import)	1989-92	Coded lock without pawl	D-22-110	If original pawl cannot be reused use pawls P-22-303 (RH) or P-22-304 (LH) Use face cap P-30-217 chrome or P-30-218 black Use tumbler series P-30-161/164			
Plymouth	Colt hatchback & sedan (import)	1993-96	Complete lock with pawl reversible R&L	D-22-113	Use tumbler series P-33-101/105			
Plymouth	Colt Vista (import)	1984-91	Lock service package no pawl	D-22-207	Previously available as D-22-107 or D-22-105 complete locks If original pawl cannot be reused use pawls P-22-301 (RH) or P-22-302 (LH) Use face cap P-22-201 chrome, or P-22-202 black Use tumbler series P-30-141/144			
Plymouth	Colt Vista (import)	1992-94	Complete lock with pawls RH & LH	D-22-140	Previously available as D-22-120 right side and D-22-121 left side Use tumbler series P-30-161/164			
Plymouth	Conquest (import)	1983-89	Lock service package no pawl (without microswitch)	D-22-207	Previously available as D-22-107 or D-22-105 complete locks If original pawl cannot be reused use pawls P-22-301 (RH) or P-22-302 (LH) Use face cap P-22-201 chrome, or P-22-202 black Use tumbler series P-30-141/144			
			Complete lock RH with microswitch	D-22-103	For LH application use D-22-103 and the original pawl must be reused. Tumblers and face caps same as used with D-22-207 listed above.			
Plymouth	Cricket (import)	1971-73	Try classic Chrysler parts suppliers or classic British car parts suppliers.					
Plymouth	Horizon (L)	1990	Uncoded service pack chrome	DL4815U	Coded pair chrome	DL4815	Use face cap RP6218 (P-44-201) Use tumbler series P-44-101/104	
Plymouth	Laser (import)	1990-94	Complete lock RH	D-22-111	Complete lock LH	D-22-112	Use tumbler series P-30-161/164	

The ASP Part Numbering System

Working with the ASP part numbers is easier if you have a basic understanding of the part numbering system, explained here:

The first letter or letters of the part number identify what type of product the part number is:

A   Keying kits and parts assortments
B   Luggage compartment locks
C   Ignition locks
D   Door locks (including complete locks that
         include the door handle)
DH   Door handles (except complete locks that
         include the door handle)
DP   Door locks (keyed alike pair)
E   Engine compartment locks
F   Fasteners (including lock retaining clips,
         shear-head bolts, door panel fasteners, etc.)
G   Glove compartment and stowage locks
KB   Key blanks
P   Lock service parts (including tumblers, face
         caps, and other parts)
RK   Remote head key blanks
S   Lock sets
T   Fuel tank locks
W   Ignition switches (wiring assembly only without
         lock cylinder)

The second two digits of the part number tell you the PRIMARY brand of vehicle that the item is used on:

00   Various cars
11   Alfa Romeo
12   Audi
13   BMW
14   British Cars (Austin, Jaguar, Land Rover, MG,
         Range Rover, Triumph)
15   British Chrysler (Plymouth Cricket, Sunbeam,
         Hillman)
16   Nissan / Datsun / Infiniti
17   Fiat
18   European Ford (Capri, Fiesta, Merkur)
19   Honda / Acura
20   Mazda
21   Mercedes-Benz
22   Mitsubishi
23   GM Europe (Cadillac Catera, Pontiac Lemans,
         Opel)

24   Isuzu (including General Motors brands)
25   Peugeot
26   Porsche
27   Renault
28   Saab
29   Subaru
30   Toyota / Lexus / Scion / Hino truck
31   Volkswagen
32   Volvo
33   Suzuki
34   Lada
35   Lancia
36   Hyundai
37   Daihatsu
38   Citroen
39   Yugo
40   Kia
41   General Motors USA (Buick, Cadillac, Chevrolet,
         GMC, Oldsmobile, Pontiac)
42   Ford / Lincoln / Mercury (USA)
43   American Motors (including some Heavy Trucks
         and Jeep)
44   Chrysler / Dodge / Jeep / Plymouth
45   Skoda
49   Saturn
50   Daewoo (including Chevrolet Aveo, Saturn Vue,
         other General Motors brands)
55   Renault truck (including some Mack trucks)
56   Freightliner truck
57   Kenworth truck
93   Harley Davidson Motorcycle
94   Honda Motorcycle
98   Yamaha Motorcycle

For example, if you have part number C-30-107, by understanding the part numbering system you will know that the part is an ignition lock (first letter C), which fits a Toyota (second two digits 30).

There are exceptions to this system created by the same part being used on more than one brand of car.   Also some parts are used in more than one place on the car – for example, B-14-210 is numbered as a luggage compartment lock, but also is used as an ignition lock or door lock on some cars.

ASP PART NUMBERING SYSTEM

The same part being used on more than one brand of car is explained by lock families, as follows:

Audi - also found on some Porsche and Volkswagen

Ford USA – also found on some Mazda and Nissan

Honda / Acura - also found on some Isuzu

Mazda – also found on some Chrysler imports, Ford imports, General Motors imports, GEO, Mitsubishi, Suzuki

Nissan - also found on some Subaru and Isuzu truck

Toyota – also found on some Chrysler imports, Daihatsu, General Motors imports, GEO, Hyundai, Isuzu, Kia, Mazda, Mitsubishi, Suzuki.

Volkswagen - also found on some Audi and Porsche (tumblers also used on BMW)

You will also find some parts that are used among the brands of the following groups of cars:

British cars - Aston Martin, Austin, English Ford, Jaguar, Jensen, Land Rover, MG, Morgan, Range Rover, Rover car, Sterling car, Triumph, TVR, Volvo.

French cars -   Peugeot, Renault, Citroen

German cars - Audi, BMW, Daewoo, General Motors (Cadillac Catera, Chevrolet Aveo, Pontiac Lemans, others), Mini, Porsche, Mercedes-Benz, Volkswagen

Italian cars - Alfa Romeo, Bertone, Ferrari, Fiat, Iveco, Lada, Lamborghini, Lancia, Maserati, Pininfarina, Yugo

Lockcraft Part Numbers

The first two letters of the part number identify what type of product the part number is:

DL   Door lock
LC   Ignition lock
LS   Lock set
RP   Lock service parts (including tumblers, face
          caps, and other parts)
SK   Keying kits and parts assortments
TL   Luggage compartment locks

Lockcraft part numbers that end in "U" are uncoded locks.

There have been many changes to the Lockcraft part numbers over the past years, explained as follows:

Most old Lockcraft part numbers had no letter prefix. For example, old part number 1426 was changed to LC1426 to identify the type of product.

Some old Lockcraft part numbers had a letter prefix "A", which was changed to "RP".   For example, part number A6001 was changed to RP6001. This could be confusing if you have an old Lockcraft or All Lock keying kit or parts assortment which identified the parts inside by the letter prefix "A". When reordering simply change the "A" to "RP".
Some old Lockcraft part numbers had a digit "3" at the end of the part number, which designated poly bag packaging. For example, part number LC14263 designated the LC1426 ignition lock in a poly bag. The currently used part numbers now eliminate the "3" at the end and using the example LC14263 is now simply LC1426.

Some old Lockcraft part numbers had a digit "8" at the end of the part number, which designated that it was an uncoded lock. For example, part number LC14268 designated the LC1426 ignition lock in uncoded form. The currently used part numbers now use "U" at the end of the part number instead of the "8". Using the example LC14268 is now LC1426U.

PART NUMBER LISTING and POPULARITY RATINGS

Part Number Listings and Popularity Ratings

Pages 214-233 contain a complete listing of ASP part numbers, with the 2008 popularity rating for each part number. The popularity ratings are explained as follows:

A = Most popular items (lock cylinders and replacement parts)

B = Second most popular group of lock cylinders

Y = Replacement parts (keying kit refill tumblers, face caps, etc.), popularity equivalent to B-rated lock cylinders

C = Third most popular group of lock cylinders

Z = Replacement parts (keying kit refill tumblers, face caps, etc.), popularity equivalent to C-rated lock cylinders

H = Items not recommended for stock by distributors, these parts are normal stock items for the ASP warehouse and available for drop shipments (HI-SPEED delivery). Orders must be placed through your distributor, and are subject to stock on hand at ASP. Some distributors may have selected H-rated items in stock.

S = Special order items only, may not be in stock at ASP. These items may be subject to minimum order quantities if needed. Some distributors may have selected S-rated items in stock.

DWO = Discontinued when out. Some items may still have limited stock at ASP or at some distributors, but will not be restocked when existing supplies are sold out.

ASP products are sold through the network of locksmith supply distributors located throughout the USA and Canada.

With over 4,000 different part numbers in our range, it is impossible and impractical for distributors to keep every part number in stock. Thus we have assigned each of our part numbers a popularity rating to assist distributors in keeping stock. We have implemented new distributor stocking programs based on these popularity ratings. Please check www.carlocks.com for the most current information about our distributor stocking guidelines. ASP is working closely with our distributors to provide you the fastest delivery possible at the lowest possible cost.

Distributors who make a commitment to keep stock according to our recommendations are listed on www.carlocks.com
This list is subject to change at any time. Distributors who do not keep the stocking commitment will be removed from the list.

Explanation of other notes on the part number listing

a. Some items have (now use ...) to the right of the part number, with a rating of DWO.
For example: A-13-105 (now use A-31-110) – this means that A-13-105 has been superseded by A-31-110.

b. Some items have (substitute ...) to the right of the part number, with a rating of DWO.
For example: B-19-154 (substitute B-19-155) - this means that you can substitute B-19-155 for B-19-154, but there is some difference between the two parts. A complete listing of these part numbers with a brief explanation of the difference between each superseded part and the replacement part is provided on pages 234-237.

c. Some items have (see ...) to the right of the part number, with no popularity rating.
For example: B-16-105 (see B-16-205), with no popularity rating. Then go to B-16-205 and you will see it listed as B-16-205 (B-16-105) with the popularity rating of B. This is a result of our consolidating some similar interchangeable part numbers. In this example, whether you order B-16-105 or B-16-205, you will get the same part at the same price. A complete listing of these part numbers is provided on pages 238-239.
