

Speedex® Code Adapter Kit

No. SCA-9100

For Mini Speedex®
and Premier Speedex®

Scan for more info!

HPC's Speedex® Code Adapter Kit turns your duplicator into a code cutting machine! It works on all Mini Speedex® and Premier Speedex® Machines. It's faster to cut a key to a cylinder than to pin a cylinder to a key! Perform an easy one-time installation and have two machines in the same space as one. The adapter locks out of the way when duplicating and holds .500" size plugs. **HPC's Speedex® Code Adapter Kit is the least expensive way for you to start code cutting!**

For Blitz™ (pictured)

No. TIBBE-SWITCH

For Switch Blitz™

No. TIBBE-SHARK

For Tiger SHARK™

With the Tibbe Key Adapter Kit you can cut both 6-space and 8-space Tibbe keys on your Blitz™, Switch Blitz™ or Tiger SHARK™ machine. These specialty keys are used on some Ford and Jaguar cars. Fast, easy, accurate and economical, this adapter will be a valuable addition to your cutting equipment. The Tibbe Key Adapter Kit comes with everything you need to cut these high-profit keys, including the adapter, slotter cutter, 2 Allen wrenches and a code card (for all Blitz™ and Switch Blitz™ Series Key Machines).

Tubular Key Adapter Kit

No. TKA-CMB

For Blitz™ (pictured)

No. TKA-SWITCH

For Switch Blitz™

No. TKA-SHARK

For Tiger SHARK™

With the Tubular Key Adapter Kit you can convert your Blitz™, Switch Blitz™ or Tiger SHARK™ into a tubular key code machine. It is factory preset to cut standard 7-pin tubular keys (.375 O.D.) by code. The Tubular Key Adapter **fits in the standard jaw making conversion quick and easy.** The kit comes with an adapter, carbide slotter cutter, a code card (with the Blitz™ and Switch Blitz™ models) and an Allen wrench. Plus, with the included Tubular Key Decoder, you can **quickly decode existing tubular keys and make new factory originals by code.** Fast, easy, accurate and economical, the Tubular Key Adapter Kit is a valuable addition to your cutting equipment.
