A045: LOOP-D-LOOP TOOL

Fed in under the window, the 'loop' is fixed around the straight or mushroom style button head and pulled tight, then lifted up to unlock. The heavy duty coated wire is securely cramped.

A095: TOOL USAGE INSTRUCTION

The 52 page Tool Usage and Instruction Booklet is a great resource for understanding different auto locking systems and how to use our tools for car openings. Keep on hand for most car opening situations.

A010: THE ORIGINAL SLIM JIM

The Original Slim Jim is still the best for opening cars. The Slim Jim design unlocks a variety of foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: ¾" x 22½" x .032" thick.

A011: SUPER SLIM JIM

The Super Slim Jim is wider and thicker than the Original Slim Jim. Designed to unlock many foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 1¼ x 25" x .032" thick.

A025: EZ SLIM JIM

The E-Z Jim is a medium thickness Slim Jim designed to unlock a wide variety of foreign and domestic vehicles. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 1" x 25" x .042" thick.

A030: EXTRA LONG SLIM JIM

The 30" in. Extra Long Slim Jim is like the Original Slim Jim, but designed to reach even the deepest linkage. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: ¾" x 29½" x .032" thick.

A0C0: CLAMP ON SLIM JIM

The Clamp-On Slim Jim is used to unlock horizontal locking devices by pushing the end of the tool onto the linkage for a secure grip. Made of stainless steel. Full Color Instructions included. Lifetime warranty from manufacturer's defect.

Size: 1" x 25" x .040" thick.
