

**Stronger Than Ever!**  
**Major Manufacturing's**

# **GARAGEBLOK** T.M.

## **Jimmie-Proof, Fortress-Like Shield For The Garage, Warehouse, Overhead or Swinging Doors and Many Other Applications**

*In the time they try to: Jimmie, Pry, Bust, Smash or Saw a Garage Door with a Major "Garage Blok" on each side, they'll have to break the door down.*

- Incorporates a hardened steel bolt and built-in "lock shield" which all but eliminates sawing either in half.
- 5/8" hardened steel locking bolt featuring a **centered point** for **pin-point drilling accuracy** for installing strike.
- Protective padlock shield.
- Tough, armored **2-1/4 pound 3/16" steel housing**, plated in zinc chromate.
- Anchored by four 5/16" carriage bolts. Bolts, washers, nuts and strike supplied for mounting.
- Blok can be locked in open bolt position to prevent theft of padlock or door being inadvertently locked.
- Available in **both right and left side models**.
- Easily installed in minutes.
