Model 2890 PDL Pedestrian Door Lock

Built to the Requirements of Federal Specification FF-L-2890

- Surface mounted, automatic door deadbolt with pinch-proof strike for protection of SCIFs (Sensitive Compartmented Information Facilities) and other areas where sensitive information and activities need to be protected.
- Incorporates an FF-L-2740B approved S&G model 2740B combination lock for maximum security and ease of operation.
- Accommodates both left-hand and right-hand doors, and is available with four different strikes for in-swing and out-swing doors.
- Inside turn knob allows quick, easy exit from inside the protected area.
- Integral blocking knob (or included key cylinder) can be used to prevent locking of the 2890 PDL when the secure area is occupied.

Part Number	Description
