

# STI MUGGER STOPPER® PLUS

STI-12006

## PRODUCT OVERVIEW

Mugger Stopper Plus helps stop mugger attacks or harassment two ways: with an ear piercing 120 dB alarm or with an attention grabbing strobe light.

This two-way action also makes it more effective in summoning aid in case of an injury or fall. In addition, the built-in light can be used as a flashlight to help you find your keys or the keyhole on those dark, moonless nights.

## HOW IT WORKS

To activate the Mugger Stopper Plus alarm and strobe light, simply pull out the plug on top of the unit. To turn on the built-in flashlight, slide the button on the side of the unit up.

**IMPORTANT:** The Mugger Stopper Plus alarm is extremely loud. Never place the unit close to your ears. To test alarm, direct the unit away from you at arms length and pull out pin on top of unit.

## KEY FEATURES

### General Information

- Strobe light makes it even more effective in summoning aid in case of injury or fall.
- Handy built-in flashlight to find keys, etc.
