

# VMRK Series

## 19" video rack enclosure

designed to maximize space and take full advantage of ceiling height, the VMRK-54 gangable broadcast video rack provides 54 spaces of racking height while still maintaining a slim 22" standard width

### features:

- Fully welded construction provides the following weight capacities - UL Listed load capacity: 2,500 lbs. - Seismic certified load capacity: 640 lbs.
- 54 spaces of racking height - extra height allows for the mounting of additional equipment in the same floor space
- Fully adjustable, 10-32 threaded front and rear rackrail with numbered rackspace increments
- 1/2", 3/4", 1", & 1-1/2", electrical knockouts on split rear plates top & bottom easily removable for cable pass-through, top plates additionally include UHF / VHF knockouts
- Latching rear door standard
- Optional keylocked split side panels available
- Optional solid, fully vented, & plexi front doors available
- Open top with configurable top panel options
- Top rail option available
- Seismic Certified (when used with MRK-Z4 option) with an Ip value of 1.5
- Durable black textured powder coat finish
- UL Listed in the US and Canada

VMRK-54

### specifications:

EIA compliant 19" equipment rack shall be Middle Atlantic Products model #VMRK-54 (-36). Overall dimensions of rack shall be 100.625" H x 22" W x \_\_\_\_" D (31.4", 36"), with 54 useable rackspace. Fully welded construction provides a UL Listed 2,500 lb. weight capacity. Rackrail shall be 11-gauge steel with tapped 10-32 holes in universal EIA spacing. Rack shall include a locking, latching rear door. Rackrail shall have numbered spaces. VMRK-54 shall be of fully welded construction, finished in a durable black powder coat. The VMRK-54 shall have a solid latching rear door. Rack shall have removable top and bottom split rear knockout panels with 1/2", 3/4", 1" and 1-1/2" electrical knockouts and BNC knockouts for UHF/ VHF antennae in the top only. Grounding and bonding stud shall be 1/4-20 threaded, installed in base of enclosure. VMRK Series enclosures shall satisfy the 2007 & 2010 CBC; 2006, 2009 & 2012 IBC; ASCE 7-05 (2005 Edition) & ASCE 7-10 (2010 Edition) and the 2006 & 2009 editions of NFPA 5000 for use in areas of high seismicity, Seismic Use Group III, Zone 4 or Seismic Design Category (SDC) "D" with lateral force requirements for protecting 640 lbs. of essential equipment in locations with the highest level of seismicity and top floor or rooftop installations with an Importance factor (Ip) of 1.5 when used with MRK-Z4 seismic floor anchor bracket. Rack shall be UL Listed in the US and Canada. VMRK shall be GREENGUARD Gold Certified. VMRK shall be RoHS EU Directive 2011 / 65 / EU compliant. VMRK shall be manufactured by an ISO 9001 and ISO 14001 registered company. Rack shall be warrantied to be free from defects in material or workmanship under normal use and conditions for the lifetime of the rack.
