

WIRELESS KITS, ACCESSORIES AND CABLES

With a selection of mounting brackets, cables and other accessories, Electro-Voice helps you tailor your EV wireless microphone systems to the specific requirements of each and every situation.

RM-300 SINGLE RACKMOUNT KIT

Single rackmount kit for rack mounting one R300 wireless system R300-RX diversity receiver. Also features two antenna mounting ports for front-mounting antennas when used with SFMC-300 single front mount antenna kit. Includes all required screws and hardware.

- Mounts one R300 receiver in one 19" rack space
- Includes knockouts for front mount antenna cables for use with the optional SFMC-300
- Includes screws, hardware and instructions for installation
- Powder coated steel construction

RMD-300 DUAL RACKMOUNT KIT

Dual rackmount kit for rack mounting two R300 wireless system R300-RX diversity receivers side-by-side in a 19" single rack space. Includes all required screws and hardware.

- Mounts two R300 receivers in one 19" rack space
- Includes screws, hardware and instructions for installation
- Powder coated steel construction
- No knockouts for front mounting antennas

SFMC-300 SINGLE FRONT MOUNT ANTENNA KIT

Single front mount antenna coax cable kit for R300 wireless systems when used with the optional RM-300 single rackmount kit. Contains two 20" RG-58 coax cables with the proper TNC connectors on each end to accomplish the task, along with an instruction sheet for trouble-free installation.

- Two 20" RG-58 coax cables
- Female TNC ends connect to receiver
- Male TNC ends mount in optional SFMC-300 antenna knockouts

RM-D DUAL RACKMOUNT KIT

This kit for rack mounting two receivers works with RE-2 systems as well as with FMR-500, SAFE-1000 and other older half-rack receivers. Includes all required screws and hardware.

- Mounts two RE-2 receivers side-by-side in one 19" rack space
- Includes knockouts for FMCK front mount antenna cables
- Includes screws, hardware and installation instructions
- Powder coated steel construction

RM-S SINGLE RACKMOUNT KIT

A single rackmount kit for RE-2 systems as well as for FMR-500, SAFE-1000 and other older half-rack receivers. Includes all required screws and hardware.

- Mounts one RE-2 receiver in one 19" rack space
- Includes knockouts for front mount antenna cables (RMS-TNC includes cables)
- Includes screws, hardware and installation instructions
- Powder coated steel construction

FMCK FRONT MOUNT ANTENNA KIT

The FMCK includes four front-mount antenna cables with female TNC connectors on one end and a bulkhead male TNC on the other end. The male connectors mount in the provided knockouts of the RM-S and RM-D rackmount kits. The four included cables are enough for two receivers.

- Female TNC end connects to any EV/Telex receiver
- Male TNC connector mounts in the rackmount knockouts
- Four cables included in each kit, enough for two receivers

RSB-2 REFEREE MUTE SWITCH

The RSB-2 toggle mute switch is the football standard for referee wireless systems. The RSB-2 plugs in between the lavalier or headworn microphone and the bodypack transmitter to provide a noiseless mute. The REV-WT and WTU-2 bodypacks automatically recognize the RSB-2 but older transmitters require a special referee version.

- TA4 in and out connectors for any EV/Telex lavalier microphone and bodypack transmitter
- Belt clip for wearing on right or left side
- Positive toggle switch is large and easy to use without looking
- Noiseless mute, no clicks or pops

TXA XLR TO TA4 ADAPTER

The TXA is designed to enable the use of lavalier, headworn and other TA4F-terminated EV professional microphones in a wired configuration. Using standard phantom power through the TXA ensures the same high-quality audio performance that you expect using EV microphones over wireless systems..

MAC-2 XLR TO TA4 ADAPTER CORD

The MAC-2 cord allows any dynamic handheld microphone to be used with any EV or Telex wireless bodypack transmitter.

- TA4 connector for any EV or Telex bodypack
- 4' cord to XLR
- Works with dynamic microphones only

MAC-G2 GEORGE L™ GUITAR CABLE

No-solder George L guitar cable for the WTU-2, CSB-1000, WT-1000 and REV-BP. The MAC-G2 includes a straight-in and a right-angle 1/4" connector so you can use whichever is best for your guitar.

- No-solder, low noise cable and connectors for great sound and easy repairs
- Includes right-angle and straight-in 1/4" connector
- TA4 connector for any EV or Telex bodypack transmitter
