

ENSURE EARLY DETECTION OVER LARGE DISTANCES

THERMAL IP PORTFOLIO

In mission critical environments with limited vision due to poor lighting, smoke or complete darkness, Bosch IP thermal cameras make a world of difference due to their combination of Intelligent Video Analytics and thermal imaging.

Relevant thermal images

In situations with
smoke/dust

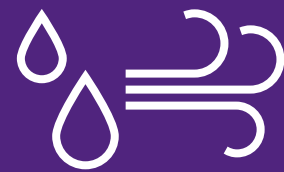

In complete
darkness

Even when obscured
by foliage

Intelligent Video Analytics

Video analytics for extremes

Reliable alerts,
even in extreme
weather
conditions

Video Analytics
extremely resistant
against shaking

Ensure early
detection over
large distances
(762m)
