

110-Style Cross Connect Horizontal Cord Managers

APPLICATION

Leviton 110-Style Cross Connect Horizontal Cord Managers are designed to be placed in between wall-mount 110 wiring bases or rack-mount wiring panels for easy routing, organizing, and managing of patch cords.

SPECIFICATION

The horizontal 110 cord managers shall mount to a wall or backboard, or onto 300-pair mounting-frame basic or extension units, providing the capability to organize and contain patch cords. The cord managers shall comply with ANSI/TIA-568-B and ANSI/TIA-606 requirements, be UL listed, and be made of fire-retardant plastic rated UL 94V-0.

FEATURES

- Ideal for use where space limitations and low cost are a concern
- Available with or without standoff legs

DESIGN CONSIDERATIONS

- Mounts directly on wall or backboard, or onto 300-pair mounting-frame basic or extension units
- Position cord managers between 110 wiring bases
- Mounts on 19-inch distribution frame on hinged wall-mount bracket

STANDARDS COMPLIANCE

ANSI/TIA-568-B
ANSI/TIA-606
cULus Listed

PHYSICAL SPECIFICATIONS
