

EXTEND YOUR INSTALL

The Fusion pull out accessory can be used with any of the new Fusion fixed and tilt wall mounts, including portrait. This accessory provides greater flexibility to your inventory and can be added to installs for easier servicing, especially in recessed applications.

What's New?

- Up to 11.54" (293 mm) extension when combined with Fusion mount
- Retracts to 1.56" (40 mm) depth from the wall (not including mount depth)
- Plumb adjust to keep display in line with the wall
- Optional lock to secure mount in home position
- Can be used with tilt mounts and X-Large Fusion for increased mounting patterns up to the 150 lb (68 kg) capacity*

**For medium mounts, the 125 lb (56.7 kg) capacity applies.*

FCAV1U Shown retracted with LTM1U

FCAV1U Shown extended with LTM1U

The new FCAV1U accessory is available now, and the older Fusion pull-out mounts (LSMVU, MSMVU, LSMVPU and MSMVPU) will be phased out in August, 2016.
