# CAM-KIT™ Security Camera Mounting Kit

*Secure, Universal Mounting to a Variety of Boxes*

**NEW!**

***The Easy Way to Secure  
Camera Installations  
on a Ceiling or Wall***

## Installation on 3.5" or 4" box:

Attach SC5 bracket to inside of the box.

Attach camera to mounting plate.

Place assembly on bracket. Turn clockwise to lock. Install set screw.

Done! Secure camera installation on ceiling or wall.

If your project calls for mounting a security camera, try Arlington's new CAM-KIT™ camera mounting kit for versatility at its best. It's the easy, secure way to install a security camera on a ceiling or wall. The SC5 CAM-KIT includes a universal bracket, mounting plate and mounting screws.

The CAM-KIT fits ANY camera hole pattern because you drill the holes in the mounting plate. Plus, its universal mounting allows it to work with 3-1/2" and 4" fixture boxes, single-gang device boxes and our CAM-LIGHT™ series of boxes.

- Secure attachment of low voltage or power security cameras to ceiling or wall-mounted boxes
- Use indoors or outdoors in dry or damp locations
- Includes 5" round plastic mounting plate, camera mounting bracket and mounting screws
