Material Safety Data Sheet

Identity (As Used on Label and List)

May be used to comply with OSHA'S Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

Section VII	Precautions for Safe Handling and Use					
Steps to be taken in ca	ase Material is Released or Spilled Special Precautions: Use good	housekeeping practices to prevent accumulation of dust				
	and to keep airborne dust	to a minimum.				
Waste Disposal Metho	 Do not incinerate. Dust, etc. – follow federal, state, and lo 	ocal regulations regarding disposal.				
	Precautions to Be Taken in Handling and Storing; Not to be stored near open flame. Not to be stored in areas where the temperature exceeds					
176°F.						
Other Precautions;	None during normal use					
Section VIII	- Control Measures					
Respiratory Protection	(Specify Type)					
	st/fume respirator should be used during welding or burning if C					
Ventilation	Local Exhaust	SPECIAL				
	As needed to remove fumes	None				
	Mechanical (General)	Other				
As needed to remove fumes and/or dust		None				
Protective Gloves;		Eye Protection;				
	ding or burning.	Safety glasses should always be worn when grinding or cutting;				
	ing or Equipment; As required					
Work/Hygienic Practice						
Section IX	Additional Information					
This product has been	determined to be RoHS and REACH compliant from current information	on available.				
Disclaimer:
