Jack Module:	KJS6X88TC

technical information

Mounting options:	Mounting plate compatible with DIN openings
Number of ports:	2-port configuration; slopped and shuttered
Packaging:	Includes mounting plate, plastic frame, 2-port 50mm X 50mm shuttered adapter, label, and hinged label cover
Material:	Cover and adapter are made of ABS material The mounting plate is zinc die-cast

key features and benefits

|	
Modular	Keystone modules snap in and out for easy moves, adds and changes
Sloped ports	45° ports facilitate cable flow and provide more cable room
Concealed screws	Utilizes two-piece design that allows the frame to mount over the base to hide the mounting screws for added security and aesthetics
Labeling capability	Includes label pocket that allow ports to be properly identified
Hinged doors	Protect connections from dust and debris

applications

Panduit Keystone Faceplates offer an aesthetic solution that complements work areas, while offering various features that enhance functionality by offering modularity and flexibility. Will support copper, fiber and audio/video applications. As part of a global workstation outlet solution offered by Panduit, Keystone 80mm X 80mm Faceplates mount to select industry-standard wall boxes as a two piece design that provides a mounting plate to secure jacks to wall box and a frame that will conceal the mounting method. Two port 50mm X 50mm adapter will screw directly to the mounting plate through the label pocket, securing all the components in place. Adapter includes shuttered doors that can be closed manually when connections are not in use to protect them from dust and debris. Built-in label pocket includes a hinged cover that remains attached to the faceplate while labeling to avoid misplacing.
