

Featuring the JO Series

7" Touchscreen Intercom with Mobile App Capability  
for On-the-Go Home and Business Owners

# Get the Best of Both Worlds

## See. Talk. Unlock. While at home or away.

Identify visitors and grant access with the reliability of an interior station...

*Screen images are simulated*

*Whether it's a delivery, a child's play date, or an unexpected visitor, you can easily see and speak with your guests.*

## Depend on Aiphone at your home or workplace

- Instant call-in from a visitor allows you to determine intent *before* unlocking the door
- Large 7" touchscreen provides crisp, clear detail of your caller
- Hardwired station ensures calls will not be missed, even when internet is down or slow
- Built-in memory stores up to 10 recordings for later reference
- Micro SD Card expands memory without recurring fees
- Provides power to video door station – *no batteries needed*

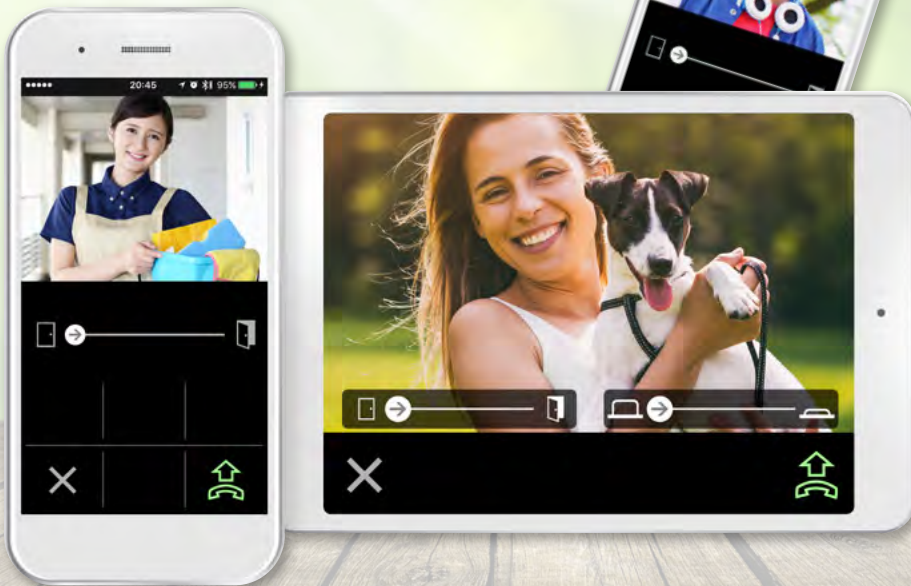

Learn more at [aiphone.com/JO](http://aiphone.com/JO)

or with the convenience of a mobile app.

*The JO Series Mobile App provides the ability to remotely unlock the door for your cleaning service, dog walker, or anyone who forgot their key.*

## Answer your visitor offsite

- See and speak with visitors from virtually anywhere
- Prevent accidental unlocking with in-app slider
- Monitor your door anytime, from any location
- Zoom in and out for greater detail
- Get convenience and safety – *even on the go!*
- Download from Google Play™ or App Store<sup>SM</sup>

Google Play is a trademark of Google Inc. App Store is a service mark of Apple Inc.

Security, convenience, and timeless style all rolled into one aesthetic station. The sleek, contemporary design complements today's home interiors.

## Perfect for Small Offices

With clear audio and video, it's easy to identify and communicate with visitors, colleagues, vendors, appointments – or even potential threats – at an entrance.

## Mobile App for Off-Site Control

With a smartphone or tablet, a visitor's intent can be determined before unlocking the door – from anywhere.

# Get More Bang for Your Buck

*When Aiphone is your security communication provider, you get **more than just an intercom.***

## Trusted Brand for Nearly 50 Years

Since 1970, Aiphone has been the leading intercom manufacturer in all of North America.

Far from a start-up, our organization continues to impress customers with innovative technologies and continued intercom enhancements for home and office communication.

## Freakish Reliability Protects Your Investment

Our products are known for extreme longevity. When it comes time to replace an existing system, the reason is typically because clients need to grow or add a feature set, not because of failing components.

With this unmatched reliability, you can be confident any Aiphone system will be around and functioning for years to come.

## Reputation for Award-Winning Quality

### ISO 9001:2015 Certified Intercom Manufacturer

The International Standards Organization (ISO) 9001:2015 certification is a globally-recognized mark of quality in product design and development, production, inspection, and testing. Aiphone has received this world-renowned certification since the year 2000.

### Prestigious Deming Prize Award-Winner

The Union of Japanese Scientists and Engineers awards the exclusive Deming Prize to a handful of companies who wow them with total quality management. Aiphone is proud to be a rare, two-time winner of the prestigious Deming Prize for quality management and manufacturing processes.

## Local Service & Outstanding Support

Whether you need guidance with system selection or support to answer your questions, we are here for you before, during, and after the sale. Our commitment to your satisfaction is equivalent to our commitment to supply quality products. Second to none.

Not quite sure if Aiphone is a good security solution for your home or office? We recommend trying *before* buying. We offer free product demonstrations at a location convenient to you.
