OBERON

Many Wi-Fi and Small Cell AP manufacturers recommend that their APs be mounted in a horizontal orientation for optimal wireless coverage. In locations where the APs are to mounted on the wall, Oberon's 1006 series H-Plane™ right angle wall brackets permit the AP to be mounted in the preferred horizontal orientation. With the 1006 series, the AP is partially recessed into the right-angle bracket, exposing only the antenna face of the AP, providing for the ideal combination of aesthetics and wireless coverage. Available for leading AP makes and models.

Patent Pending

NOTE: The Aruba AP-325 (only) has a BLE (Bluetooth low energy) antenna on the back side of the AP. This BLE antenna may not provide the desired coverage when mounted in the Oberon Model 1046-AP325 enclosure. If you intend to use BLE services with the Aruba AP-325 AP in an Oberon product, please contact your Oberon customer service representative for an appropriate solution.

aruba NETWORKS CERTIFIED

Features & Benefits

- Conveniently and aesthetically install APs from leading vendors on walls
- Enables APs to be mounted in preferred horizontal orientation
- AP is partially recessed into bracket, providing aesthetic appearance
- Can be mounted directly over telecommunications outlet
- AP installs without lose hardware

Technical Specifications

- Design: Right-angle mounting bracket for securing APs on walls. Designed to mount the AP in the preferred horizontal orientation. Designs available for leading AP makes and models (see Styles table)
- AP is partially recessed into bracket, providing aesthetic appearance
- AP can be secured using manufacturer's locking features
- Construction: 12 ga. white powder-coated steel
- Size: See Styles Table

Measurements (Maximum values*):

- Width: 10.5 in.
- Height: 10.25 in.
- Depth: 2.5 in.
- Item Weight: 4 lbs.
- Shipping Weight: 6 lbs.

Includes

- (1) Right-Angle Bracket
- (1) AP mounting plate
- (2) hollow tip wall anchors

- (2) white plastic bolt head covers
- (1) Installation instructions
