

CCHE Panel, empty CCHE Panel, empty

CORNING

Part Number: CCHE-CP00-LS

The panels are used with field-installable connectors or in applications where the preconnectorized cables are routed directly from the equipment to the piece of inter-connect hardware. This provides an efficient way to securely mate two or more connectors.

Closet connector housing panels are offered in 6-, 8-, 12-, 16- and 24-fiber panels for use with the LANscape® solutions hardware products. The panels are used with field-installable connectors or in applications where the pre-connectorized cables are routed directly from the equipment to the inter-connect hardware. The panels are available with a variety of industry-standard adapter types. In most applications, the closet connector housing panels are designed for applications where specified labeling and connector identification are required. This is accomplished by the use of colored icons with different symbols molded into the icon.

Features and Benefits

Designed to accommodate all industry-standard adapter types

Unique colour-coded connector labeling system

Universal approach is used; one panel size fits in all standard LANscape® Solutions hardware

CCHE Panel, empty CCHE Panel, empty

Specifications

Design

Color	Black
Housing Material	High-grade steel
Housing Type	Rack-Mountable Hardware

Dimensions

Height	220 mm
Width	100 mm
Depth	40 mm

Ordering Information

Weight	0.074 kg
Units per Delivery	1/1

General Specifications

Product Type	Rack-Mountable Hardware
Application	Enterprise Networks , LAN , Data Center
