LANscape® Fiber Housing front panel loaded with LC Duplex shuttered adapters (Breakout version), 24 Fibers, 1U, Multimode OM3/OM4, black

CORNING

Part Number:
LAN1-24AD-ADPT-B

The LANscape® housing family was designed for various applications in 19-in racks and main distribution frames. The fixed or sliding housings can be equipped with industry common adapter types in different fiber categories and are suitable for direct field termination, fusion splicing with pigtails as well as preterminated solutions. The four back openings accommodate cable glands. Additional brackets for cable strain relief for FTTD/FTTO applications or U-Clips for Plug & Play™ and EDGE™ trunks can be mounted at the backside.
The space-optimized interior makes it easy to work with ongoing moves, adds and changes (MACs), thus reducing the risk of network disruptions.

Features and Benefits

Easy to remove top cover
No tools needed

Housing made of aluminium
Lightweight, but robust

Quick-mount feature
Allows single-person mounting of housing

Accomodate different termination methods
Pigtail splicing, field connectorisation, preterminated cables, Plug & Play™ or EDGE™ trunks can be installled in the same housing

Low installation depth
Mountable in shallow cabinets or racks

Multiple labelling options
Port numbering above and below adapter modules or customised labels

LC Duplex adapter modules with self-closing shutters
Additional protection at no extra cost
